Her Diary for 1937.

Friday, January 1, 1937

1st day — 364 days follow

Great excitement as Hugh & Henry & Ellen made ready to go out in the woods for the day. Wagoner packed them a lunch & off they went. She went home & Mike & Towson & I were left to do a big washing, as the sun is shining. Towson carried off the dirty clothes, but Mike rescued them & put them in the washer. After lunch John & Lore brought me some egg nog. I wrote to Oscar & then Gen came & ironed altar clothes & talked about the house. I made tea for her & I drank egg nog. Hugh & children home to supper, tired but happy. I cut out altar clothes etc. to hem — Ma was going to do it.

Saturday, January 2, 1937

2nd day - 363 days follow

Snowing today! The children went out to try their new "scooboggans" and I mended + mended. In the afternoon I sewed by machine a bit + then Mike + I went up to Martha's. Took a pillow case to hem-stitch for Mike. He played with Martha's toy + was very good + cute in his new suit from Bea. Miss Vrie of course, was there + very talkative. Mrs. Furst + Mrs. Hale came to call there.

I got all dressed up for supper as Hugie thought we would have callers. but no callers came. I sewed + thought of new house + Hugie worked at desk

Sunday, January 3, 1937

3rd day - 362 days follow

Went to church at 8 - no Ma. Later I went up to the Crawfords to see the size of their living room etc + spent about an hour there, talking house! Eva Jean went to a funeral after starting dinner, so I put it on + washed the dishes afterward. Hugie took Jack + Henry for a walk + I took Ethel + Mike. Then Mike + I called on Margaret Cook, thinking of Ma. Sewed when I got home - doilies - and most of the evening when I had looked at the papers. Then for an hour I watched Hugie play with the dogs! O!

Monday, January 4, 1937

4th day — 361 days follow

The child came back to school again - if only Towson could go too, there would be peace in the house! Did a great big washing. After lunch Hugie & I went to the college to see the architects & spent the afternoon going over each little detail. It is a wonderful house - it seems too good to be true. I hope we will be as happy in it as we have been here. After supper the children interrupted the tea & Hugie went to a Rotary meeting. I wrote in my diary & tidied my desk & then settled down to read "Life".

Tuesday, January 5, 1937

5th day — 360 days follow

I did my ironing and went down town to see about exchanging the bathrobe Hugie gave me which is too small. I got a nice reusable quilted one instead of the "house gown" I ordered so. In the afternoon I started bedsores for Ev. to knit for me! And then cut out a slip cover for the remaining chair. At four-thirty I went with Hugie to State College - we stopped en route to see about selling Towson. Had supper at the corner & then saw Myrna Loy & William Powell in "After the Thin Man". It was wonderful, the kind of picture it is & I each love best.

Wednesday, January 6, 1937

6th day — 359 days follow

After I had made beds,
etc I called up Mr. Kennedy
in State College about some
details of the house. Then
I worked on the slip
cover — this one seems to be
the hardest of all — the
smallest chair. After lunch
I continued work — I was
sitting in my lap, listening
to Pres. Roosevelt on radio.
Billy Seig came to play with
Lulu — dozens more children
after school. Cat Loue dropped
in for a moment & K. Seig.
I finally finished the chair.
After supper Nogie took
me to State College again
to see Charles ~~Ambrant~~ in
"Rembrandt" — it was
just what I needed.

Thursday, January 7, 1937

7th day — 358 days follow

Raining so I let the washing
go in favor of doing
some mending and
getting things ready for
the afternoon. The
Reading club met here
all present except Janet.
The book had been lost
for several weeks but was
found in Winifred's pen-
ting bag! I gave them
English muffins with
marmalade. They admired
my new slip covers. Lulu
was up at Billy Seig's.
Peter & Jack Cliffe were
here to supper. In the
evening Nogie was sort-
ing out cartridges, so I
sorted out buttons, threads
etc that were in Ma's desk

Friday, January 8, 1937

8th day — 357 days follow

Cloudy again so I continued with my mending & then too late the sun came out. I also figured out my bills — enormous ones. After lunch I took Mike down town while I paid my bills. It took ages with him along, but finally we got to the Sud town where we were invited for the afternoon. Mike played with Bobley & Mrs. S. & I sewed & I seemed to talk a lot. Mr. S. had tea with us. After supper Angie had a meeting so I sorted out my great collection of buttons — Mrs. Martha's & mine! enough to button an army.

Saturday, January 9, 1937

9th day — 356 days follow

Raining again but I had to do the wash this time. This is the queerest weather for Jan. warm & drizzly. In the afternoon I worked at my desk a bit, fixing the auxiliary reports. Then Martha came with some gingerbread & a suit she knit for Mike. Mike was at Billy's legs but plenty of other children here — K. Cliffe here to lunch. Martha & I had tea & a most agreeable afternoon. I had to get supper as Mr. "had off". Then I got the children to bed & myself all dressed up for Pete & Jo who came to play bridge. We found prizes & Jo & Pete won them! But we didn't talk

Sunday, January 10, 1937

10th day — 355 days follow

Ellen woke me at 7:30 for church but it was raining & I was so sleepy I went back to bed again. And so I had to go at 11 with Hugie, but the sermon was good & as usual I resolved to do better with the children's religion. But after a large duck dinner I got so sleepy and the children so full of play that I didn't read any Bible stories to them. Hugie stayed home to do odd jobs & the children helped him so I napped undisturbed except by a distant din of noise. I must be billions, I am sure Ma would say so. Ellen & I got supper again. Listened to Nelson Eddy, but even he didn't seem so good tonight. Then Hugie read to me.

Monday, January 11, 1937

11th day — 354 days follow

Felt much better when I got up but after I had done a big washing I was tired & sleepy again. So after lunch when Ev. took Mike home with her it was so quiet that I lay on davenport under the wire of glass Ma helped me with lunch & took a nap until three when Mrs. Rosenberg stopped for me to go to a meeting at Mrs. Richard's at which Mrs. Fleming, our president told us where our mission money goes. After supper Hugie took me to college to see Gita, Garbo & R. Taylor in "Camille". It was wonderful & I got me all worked up. O.

Tuesday, January 12, 1937

12th day — 353 days follow

Ironed. Great excitement as the Talbotts just got a Scotty dog, but it seems to get on all right with our two. K. Siif brought Billy & I smoked a cigarette with her. Later I went up to see Olive's new dress & sort of say good-bye to her - they moved to Hershey on Thurs. After lunch I took a nap until Martha arrived. Mike & Towson napped too. Finally finished my lunch box set I started last summer. M. & I had tea. After supper I helped M. with her sewing she is knitting for me & then went to practice to the Bridge club. I ironed

Wednesday, January 13, 1937

13th day — 352 days follow

Washed today and put in a lot of extra like Ellen's red blouse that had never been washed before - it turned out well, too. After lunch Mike went to Billy's & I went to the doctor - I did not have to be cauterized again, thank goodness! Got mineral oil for Ellen. Went to Gene's to play our mandolins & have tea. Then met Mary Miller, a school girl, to show me how to mend my album but she didn't have wide enough stuff. Ev. off. Jack & K. Cliffe to supper. The clock eye from Lock Haven came in. Towson. ^{found at new}

Thursday, January 14, 1937

14th day — 351 days follow

Made a dress for Ellen out of an old one of Martha's & interrupted my work many times to look at the plans. But the dress is a success. After lunch I stitched it & then went to Deborah's to the Reading Club — her new house is very attractive, part of Beck's. I hemmed half of an Altar cloth. Walked down town with Jo afterwards. Hugie all excited at supper about all the sets of plans being given out to bidders. Several came for them during the eve. Hugie & I studied the specifications. He gets so excited about it all.

Friday, January 15, 1937

15th day — 350 days follow

got to work on some impleases and mending, including Hugie's hunting sweaters. In the afternoon Mike went up to Billy's & I went down to Ma's house. I gathered up some bags etc that I wanted — feeling so sad in that bedroom — then I went to the cellar & soon Glen joined me there & we packed 4 bushels of olives & glass. Wind & cold we went to Miss Cook's who had kindly offered us tea — & it did taste good. After supper I read a rummy story in the Post after writing to Heinnie & thank her for a picture she sent me of a mule cart.

Saturday, January 16, 1937

16th day — 349 days follow

Did a small washing
& Ev. & I fixed up the guest
room for Homer Collins.
At noon he called up that
he was in Synona, not far
& I hastened to eat lunch
& go to meet him — the
chit den went with us
too. We sat in the living
room, talking & drinking
highballs. I showed him
the plans & mullied over
them for quite a while
myself. the kids on them
are to be in by Jan. 27 — can
I ever wait? After supper
we just sat & talked &
I finished mulling the
alter cloth. At 12 I made
a dress for Ellen & went to
bed leaving the two talking
& mulling for me.

Sunday, January 17, 1937

17th day — 348 days follow

Went to early church —
only six people there. After
I had beds made, etc I
cut linen to make pillow
cases for myself. Homer
& Hugie finally got down
to breakfast. We read the
papers & sat around. After
dinner Ellen went to Janie's
& Henry & Richard's & Hugie
took Mike & me & Homer to
look at the slush. — how we did
spid in the slush! We called
on Nucle Dick & Aunt D —
Mike was very good & I
was proud of him. We had
highballs & Mike had some
supper. Home at 8:30 — put
children to bed — Jo & Pete came
Jo helped me get supper. At
11 we took Homer to Synona

Monday, January 18, 1937

18th day — 347 days follow

Beys, I was sleepy & it is rainy & dark. I helplessly changed the duck deers beds - Gen came for some material - K. Siig brought Billy - ticked up a bit & went down town. After lunch I figured out my accounts - Billy broke again. Gen came & I dyed some pants for Ellen etc & tried to darn, but Gen & I talked house too much & the children & dogs seemed especially troublesome. Tey, but it did not soothe my nerves much - a cocktail later did the trick, etc and I managed to finish all the darning before Hugie & I went to bed.

~~Wednesday~~ Tuesday, January 19, 1937

19th day — 346 days follow

K. Siig brought Billy before I had finished breakfast! So she sat & talked to me while I ate. Later I made a pair of pants for Kinkoat of a knit skirt of Ellen's. Also fixed a bouclé dress of M's on a clip. After lunch I did my ironing, a little mending & then went to Martha's. Kinko went with me. I worked on a pillow case for myself. We had tea & discussed houses, curtains, etc. It is snowing & raining - horrible day. Hugie doesn't feel so well. Ev. off so I got supper. Pete & Jo came in afterward - I saw Gene & a couple of rain signs.

Wednesday, January 20, 1937

20th day — 345 days follow

With a big washing, interrupted by K. Sieg bringing Billy — she always has so much to say about the strike at the Litan Hotel. In the afternoon I sent off coupons & various odd jobs until finally K. Sieg came for Mike. Then I went to the third floor closet to put accumulated things away & before I knew it, Mike was back again — he had made a pee in his pants & I had that mess to clean up. But I finished the closet in time to go to the college with Hugie — me ate sandwiches & eggs on the — we saw Gary Cooper & Joan Arthur in "The Prisoner" about Wild Bill! —

Thursday, January 21, 1937

21st day — 344 days follow

Hugie feels so gippy that he didn't get up till after ten — meanwhile I had the washer going full tilt. After lunch I folded a credence table cloth & then took it to him at the Reading Club at Grace's. Gen & Winifred left for Phila. soon after three & soon after that he walked home, crying & saying he ached all over! So I had to leave — just before tea! — & bring him home to bed. I gave him oil, but he didn't seem very sick. I finished the cloth & then read to him. After supper Hugie "stamped" & I looked over a box of old letters —

Friday, January 22, 1937

22nd day — 343 days follow

Kept Henry in bed as he has a temperature of nearly 101°. But he seems to feel very well. I was entertained by his reading aloud to Niles while I sat in the little brown damming stockings + forgetting pieces of the church linen together to make pillow cases for the two boys. After lunch I sat in his room + forgot to - also read to him + played checkers with him. Hugie came home with the sickening news that Sid Bernstein is going to buy the lot next to ours + build a 3 family house on it! So after supper I just cleared out + went with R. Sieg to see "Juden + Allah". N.D.

Poor Aunt Mame Hero - Jim
glad ~~you~~ to report that!

Saturday, January 23, 1937

23rd day — 342 days follow

Henry still in bed - I attended to various household duties + got all dressed up to go with Hugie at 11 to Uncle Dick's where we witnessed Richard's marriage to Nancy Clapp. It was just family, but quite a crowd + a nice one. We had a delicious champagne punch + a very interesting buffet lunch. Had a lot of fun with all the cousins + drank a lot of punch. At six I got Hugie to go home - got "wig-zlier + wig-zlier". Found home bold in confusion due to lights going out - ate supper got children to bed some how + went to bed myself + Hugie followed me!!! O!

Sunday, January 24, 1937

24th day — 341 days follow

We slept 12 hours! and still felt a little shaky! Some champagne punch that was! I thought we'd settled every thing the night before, but found there was no electricity to cook breakfast! Hugie got Ray Vintner to come out & he fixed it. I went to church early to meet little girls to form a club. After dinner Hugie went to office & I lay down a bit before going up to sit with Henry. Jane here to supper. Pete came in & we had a highball. Spent the evening sewing & discussing with Hugie ways & means of getting rid of Sid Bernstein — age 8!

Monday, January 25, 1937

25th day — 340 days follow

Hugie went off to battle with Kennedy Johnson about Sid. I have to keep Henry in bed, but he seems so well - his temp. only 99 today. I did an enormous washing & was glad to see the sun come out. After lunch I sat with Henry getting sheets ready to patch. At four Ellen brought all the little girls here as I couldn't go to the church to meet them. I read some prayers & then we organized the "Happy Helpers". They were all very cute. I think we will have a nice club. Got the boys to bed. After supper I wrote a great long letter to Bo.

Tuesday, January 26, 1937

26th day — 339 days follow

woke up again with that awful, oppressed feeling and realized it was Sid Bernstein & the lot. Did some mending & got Henry up - he is O.K. now & went down town, stopping to see Gen. She told me Sid B. had bought a lot from her on Allegheny St. My knees were weak with relief as I hurried on to Hugie's office to tell him. In the afternoon I read the Post & then ironed, trying all the while to keep Henry from getting too ramblunctious with Mike. I was able to think of the house with joy again. In the evening I went to Jo's to the Bridge club. I ached all over - her house was so cold we had to put our coats on.

Wednesday, January 27, 1937

27th day — 338 days follow

Felt most miserable when I woke. Had Evagran bring my breakfast to my bed. When I studied the house plans until I had to get up & talk to Mr. Fisher who came to see me about light fixtures. After lunch Evagran took Mike - Henry at school again - so I lay on davenport. Martha came in with meat for Jack. At 4:30 Hugie took me to the college to see architects. I felt so bum I didn't care if we built or not. We opened the bids - counting the lot & all, it seems as if we will have to pay \$19,000!! That is a sickening amount. Home to supper - Hugie went out to walk - I went to bed.

Thursday, January 28, 1937

28th day — 337 days follow

I was in bed 12 hours but slept about 6 — oh, why does our beautiful house have to cost so much. Hugie has been trying to figure it out. He made the beds for me. I did a little mending, but I feel so rich & restless.

After lunch I went to Pegg's to the Reading club — in the new apartment. Her children & heating system were most noisy — I was glad to get my mind off our house. "Sparkenbroke" interesting. Hugie at club to supper. I didn't eat any. Put children to bed, practised on my mandolins, read Reader's Digest which said to write a will so I wrote one!

Friday, January 29, 1937

29th day — 336 days follow

Feel better today and got busy on a big wash. It is nice and sunny. After lunch Deborah took Gene & Mike & me to shop at the college. I bought 15 pairs of stockings for the children — 13 bucks. We had a tea party at the corner store and then of course, Mike had to golly. When we got home I got out at Gene's and we practised with our mandolins. It is a hard piece for me to learn Mendelssohn's Cornelius March. After supper Hugie went to a box fight & I read "Life" — the new pictorial magazine.

Saturday, January 30, 1937

30th day — 335 days follow

Showed Ellen how to darn stockings & she did very well & seemed to like it. I did various odd jobs & finally Ellen & I went down town, but too late to get anything done I wanted. In the afternoon I got her to come to sit with me while I hemstitched a pillow case for Ellen. We chatted & had tea & the children played nicely upstairs. Jane couldn't stay for supper but Richard could, always somebody can. Hugie & I went to see Eleanor Powell in "Born to Dance" — we had been looking forward to it. — Of course, were disappointed. Had supper.

Sunday, January 31, 1937

31st day — 334 days follow

Hugie went with me to early church. It is a horrible rainy, snowy day. I got to work lining my brown tweed coat & talking to Evagene. I have a fine time talking to her, most congenial. After dinner Hugie took Henry & Jack & Towser for a walk. I slept a bit over my living — Ellen & Jane & Mike playing peacefully. Henry was so excited when they came home; Hugie had let him shoot a revolver. Hugie is a good father. Finally, everyone had supper. Hugie read to me while I sewed. Then we went to bed — O.

Monday, February 1, 1937

32nd day — 333 days follow

Nice sunny day and a nice big snowing. After lunch Ev. took Mike + I practiced with my mandolin until Gus came to go with me to Datto's for more practicing for Wed. we at the Music club.

But I had a terrible time getting the time right. My Beaver played the piano + we went over it again + again. Then I went to Sedlows to a meeting about a tea, but had to leave early to meet my Happy Helpers in the church basement. We dressed dolls + made scrap-books till nearly six. I tired + feel gippy — wrote to Boo after supper. Hugie is out.

Tuesday, February 2, 1937

33rd day — 332 days follow

Awful sore throat when I woke and swollen glands in my neck. I did the morning + thought I'd never finish. After lunch Hugie insisted on my going to bed — sent Mike down to Gus. Slept + felt even worse when I woke up — temperature 102. Hugie came later to get Townsend — I half heartedly patted him good-bye + Capt. Le Grand of Kato C.C. Camp bought him for \$15. Then I thought I was going to cry — poor little Townsend of mine. But my throat hurt too much. Hugie read my murder trial to me after supper.

Glen sent me cut + iced grape
fruit. Wednesday, February 3, 1937

I'm glad I don't have to play today!

34th day — 331 days follow

Had a terrible night — rest-
less + sore all over. Night-
mares, dreamed that Mrs
walked in front door + want-
ed to know why her dock
was here + I was so miser-
able. I never knew there
could be such a sore
throat. Consulted when
Hugie said he'd seen the
doctor. He came at noon
+ says I have had tonsillitis.
Cills + gargles. Ev. took hike
home + I slept in the
peaceful quiet + felt
better. Temperature down
to 100. Looked at a building
book that was sent us.
After supper I read while
Hugie worked at the stove
downstairs. In order ^{now} to

Thursday, February 4, 1937

35th day — 330 days follow

Had another bad night
just when I thought I
was getting better! Awful
sweat, like malaria
was glad when morning
finally came. Enjoyed
talking to Evagene while
she cleaned up here. She
is so good, taking care
of me + every thing. She
even offered to stay all
afternoon! But I don't
mind being alone. Martha
stopped on her way to Reading
club bringing me some comp.
I actually expected her to
do so! Another sweat during
my nap + then I felt better.
Hugie read a story of a wood
dog + then an article on
different kinds of flowers. 102

Friday, February 5, 1937

36th day — 329 days follow

Felt worse than ever today. Bad night & Mike got sick in his bed at 3 — first time in his life! Poor Hugie had to fix him & no sooner put him in the clean bed than he vomited again. I cried I felt so sorry for Hugie. It took him an hour. Dr. H. has gripper (like when Hugie was getting pneumonia!) so finally at lunch time Dr. Lorman came. He says I may get quinsy! I have to have ice caps on my throat part of the time & gargle with awful peroxide. Napped. Looked at House & Garden Book so pretty. Felt much better after supper. Hugie & I talked house & furnace & payments & the time flew. Temp. normal at bed time — 102 this.

Martha sent a big bunch
Saturday, February 6, 1937 of roses.
Everyone is so nice. too.

37th day — 328 days follow

Much better right all around. Was able to swallow my tea in about half time. Later I wrote in my diary, & filled out some puzzle blanks for an Old Gold competition which I think I'll enter. I've been wishing & wishing Hugie'd bring me some roses & some lilies. He did, at lunch time! He is sweet. I read Proctor's & kept from napping so as to sleep better at night. It made a long afternoon & I was delighted to see Cat Lora at 5 with angel food for me. I enjoyed her visit. Mrs. Carver came later, too with cake. Hugie & I talked & later he read me a story.

Temp. around 99 today!

Sunday, February 7, 1937

38th day -- 327 days follow

Bad head ache but really
feeling a lot better. Augie
brought the plans up to me & I
went over every little detail
once more - my, but it's going
to be a perfect house! You
sent me some roses - it's her
birthday. Read Sunday
papers. Ate chicken dinner.
Steve Conell came, but not up
here. Then Augie took Jack
for a walk. Niece & Henry
played together autotons - I
napped. Later Henry gave me
his bath & Ellen & Augie got
supper. A nice little family
dinner - I am a lucky woman.
After supper you came for
nice little visit - she brought
"Excuse It, Please" by C. O. Spurgeon
which I am to read to her later.

Monday, February 8, 1937

39th day -- 326 days follow

Felt fine and was delighted
after looking over a couple
of House & Garden magazines,
to find my temp. normal, so
I got up & dressed slowly
& came wobbily down to
lunch. Afterward I took a
little nap. Then I went over
the plans I drew a long time
ago to correct them & send
them to Aunt Maud. K. Seig
brought Billy to play with
Niece & she came back
later to have a cup of tea
with me. She is still full
of the Titus mental strike
& I don't blame her. Ellen
bathed Niece for me. After
supper young Bill Hickey
from State College came to
sell me a Carrier.

Tuesday, February 9, 1937

40th day — 325 days follow

Had my breakfast in bed again and Ev. started the wash which was getting too big to ignore. Then I got up & took such a nice bath & finished working the washer - Ev. hung the clothes out. After lunch I wrote a long letter to Aunt Maud & sent her the plans of the house. Mike went up to Billy's and Martha came with her knitting and we had tea. Ellen & Mary came home without any friends & it was a most peaceful afternoon. After supper Ellen went to Scout meeting & was out till nine - I don't like it. Hagie & I read - - - - -

Wednesday, February 10, 1937

41st day — 324 days follow

Breakfast in bed again but soon I got up and did a little washing. After lunch I wrote to Miss Bessie Spencer & to Mrs. De Weese. Then Debo came to spend the afternoon. I strung my camellia & lapis beads on chain & strung various other ones that Wilse has played with. We had tea & 9 o'clock. Debo is a funny duck but I like her. Today is Ash Wednesday but I didn't go to church! I'm giving up "lickin'" for Lent. After supper I read "Sparkling" to get caught up. Hagie & I discussed furnaces - we can't decide which to take

Thursday, February 11, 1937

42nd day — 323 days follow

Breakfast in bed + I lazily stayed there reading until just time to bathe + wash my hair before lunch. In the afternoon I went to Cat's to the Reading club. I took with me one of the old Gold contest puzzles but none of the girls could help me with it. I hummed purifiers for the church. Afterward walked up to the Seips to bring Niles home - it is so nice to be out again. In the evening I looked over a pile of old Valentines for ones to send this year. Then I sewed while Hugie steered around to decide about

Friday, February 12, 1937

43rd day — 322 days follow

Got up for breakfast once more - sort of nice, too. I figured out my bills and then went down town to pay them - it is a lovely day. But I got tired and after lunch I took a nap while Niles played out with Philip + Leonie. Then K. Seip brought Billy to play with them. Soon after she left Jo came in + I made tea. And I had to listen to tales of Peter + Susan + Sally. But I suppose I bore people when I talk home. After supper I said "Get the Carrier furnace" + Hugie said "Amen" so to speak. I hope it works O.K! Hugie read to me while I

Saturday, February 13, 1937

44th day — 321 days follow

Another beautiful day, so I did my washing as fast as I could & then went down town to buy some Valentine's favors for the table. In the afternoon I took kids with me to Ma's house where I looked over some things & brought some things home with me — fortunately we met K. Sing who gave us a lift as my basket was very heavy. Ellen at a Valentine's party & Henry went to the college with Huguie to see wrestling match. I had given W. the night & all day tomorrow free. So I got busy on sweater knit supper for us. Ellen helped. Nice heart shaped box of candy from Bo. Sewed & listened to Huguie talk.

Sunday, February 14, 1937

45th day — 320 days follow

Went to church at 8, leaving some Valentines under the door as I went out. Got breakfast when I came home & received some Valentines myself. Huguie gave me two little pots of plants which I re-planted later in the A.M. Got the dinner which W. had partly prepared. Dressed the table with hearts. W. & everyone left except kids & when we had the dishes done he & I took a nap, but were soon awakened by fine horns from Lock Haven! Got hold of Ellen, but Henry & Huguie didn't come home from their walk until after the horns had gone. Nice visit with W. & Marion. Read P...

Monday, February 15, 1937

46th day — 319 days follow

Did my washing, and a dozen little things in between. After lunch Hagie & I took Sam Smith, the builder & Boss De Haas, the electrician up to State College to sign the contracts for the house. Winters, the plumber & Skrzy, furnace were also there & after much hickering with the architect we got everything duly fixed. I got my back sore & foot wider after a struggle. Hurried to church to say happy helpos who were good & hard at work. Stayed there till six, but Mr. Gane Niles too bath. After supper I hemmed pinnifators while Hagie read to me.

Before noon had the beds made I traced names from Valentines & put them away for next year. Then I framed one Ellen made me, and did a few other odd jobs & the first thing I knew it was lunch time. After lunch I wrote to Mary to give her some dates she had asked me to look up in Heinie's Bible. Also wrote to Bea. Niles cut his finger & he & I lay on down part for a little. Then I made cuffs for Hagie's shirts. Mrs. Ed. Low came to call. Hagie & I went to Pele's & Joe's to a very good dinner — I couldn't drink any cocktails. Tent. We started a bid.

48th day — 317 days follow

Henry is in bed again — too tired to get up is what he says but he runs a slight temp. & I don't know what ails him. Beautiful sunny day so I did a washing & bedspreads etc. After lunch Mike went out to play & I got Henry fixed for a while so I lay on my bed to nap, but then they both began calling "Mommie!" so I finally gave it up. Sat in Henry's room working on Angie's shirt & telling Henry stories. Ev. had supper off. Ellen helped me get it. How I longed for a drink! Angie went to church & when he came home worked up stairs. I made button holes or was

Henry still in bed, but he plays with blocks & cars & is not much trouble. Mike went up to Billy's. I did my ironing & then stitched the cuffs on the shirts. After lunch Ev. stayed here with Hen. & I went to Mary Craig's & the Reading Club. Her kitchen has been done over & is so nice — but I like my place better. We actually finished Charles Morgan's "Sparsenbrooke". Winifred, just out of hospital, came to tea. Walked home with Jo, past our lot. After supper I hummed, while Angie figured accounts for Lane & Mamma House. Little income.

50th day — 315 days follow

Henry continues to feel fine with a temp of $98^{\circ}2$ and I can't figure it out at all. When my chores were done I divided the bolt of percale I bought into 10 sheets. I could have bought them all made for same price, but I thought they had to be tougher than 3 yds! never having measured the old ones, which were only $2\frac{1}{2}$! That's the kind of dummy I am. In the afternoon I sat with Henry, creasing the beams & finally got down to stitch them, but couldn't finish before supper. After supper Eugie & I went to see Sonja Henie in "One in a Million" — the skating was wonderful but I had no time to see it.

Saturday, February 20, 1937

51st day — 314 days follow

Did some washing including the bedroom curtains & finished the sheets & got dressed for the arrival of Jim & Marion to lunch. We had cocktails first. Then we picked up the Seigs & went to the college to see Fresh. wrestling, & varsity wrestling with Syracuse State won. The Seigs had some friends there, the Chalks & we went to their room at the Kitham Lion for drinks before dinner there. Rushed back to the gym but we had to stand to watch State beat the Navy at boxing. We got seats on the ring to see them get beaten at basketball by Duke. Home to mother.

52nd day — 313 days follow

Went to church at 8 - quite a few people there. Later I patched a lot of sheets - they will be for Ellen's bed in the new house. Hugie & I are using the nice new ones. Let Henry get up & come down stairs to dinner. Afterward I drove Hugie & Jack to the Green Valley road up the mountain & let them out to walk to the club in the rain! I took a little nap when I got home, children all playing quietly. I read the papers & cleaned up my desk before time to put the boys in the tub & get supper. Hugie home early - Jack nice & clean from the rain. I read "Life" and just watched Hugie playing with Jack to tired.

53rd day — 312 days follow

Henry & I each had breakfast in bed - poor Evagene - but Henry got up before I did. I stayed in bed to assort my box of pictures, picking out some for my "Happy Helpers." After lunch I crocheted the skirt to the blouse of my blue knit dress, to make it longer. At 3 Mike went to the Seigs & Hugie took Henry to his office & drop me at Mrs. Richards to attend an auxiliary meeting. At 4 I went to the church to show my "Helpers" how to polish the brass. Home at 6, dead tired. Evagene was bathing Mike. After supper I hummed the last part of "Glad Tidings" while Hugie read.

54th day — 311 days follow

Did a great big washing under difficulty so a plumber came to fix a leaking pipe & turned the water off. Had to hang the clothes after lunch. Then I took a nap until Jo dropped in & I gave her some of Ma's dresses which she was delighted to receive. I then fixed a cap with new ribbons for Mary Hess's new baby and got dressed to go with Huguie to Uncle Dick's house — only Aunt Gertie there, we had a delicious supper & then Huguie worked on her income tax. I served for a while until Bill McComick took me to Lock Haven to see Mary & her baby. Beautiful moonlight on snow & deer too!

55th day — 310 days follow

Nice sunny day so I did more washing. After lunch I wrote in my diary & told Ev. she'd have to stay a- gain Sat. & finally took Hilop with me up to the Seigs where I attended a meeting of a Girl Scout thing. Jim on. Mrs. Robb was very interesting, but I know so little of the Girl Scouts. When it was over Katherine made tea — Henry arrived too & there was much noise & confusion. After supper I went to church while Huguie kept house. Read the Post later. Hughes, who lives in the Missis house, writes that he may sell it — we don't know what price to put on it.

Thursday, February 25, 1937

56th day — 309 days follow

Made the beds & did my ironing & telephoned about whether to risk going to College on icy roads. But after lunch we went all in Mary Craig's car, to Jan's. We started a new book "Yang & Yin" by Alice Kasdale Hobart. We had most delicious sandwiches & cake & fudge! Henry & Mike were at Skip's to supper. Hugie at club so Ellen had to eat all alone as I was too full of sandwiches. I sat with her tho & enjoyed her company. After I had them all in bed I wrote to Janet & to Olive. Then I read the Girl Scout handbooks & embroidered cross-still till 11:15.

Wagman thought yesterday that she was getting the grippe & I guess she was as she didn't come today. So I got up & got breakfast. Mike helped me with the dishes & to get lunch ready. After lunch I took a nap until Martha came. Billy was here with Mike & Ellen brought friends from school — lots of commotion. K. Seig came in for a cup of tea with us. I didn't get much sewing done. I got supper & then had to go with K. Seig & Mrs. Metzel to a girl scout meeting. It wasn't what I expected but interesting. We ran out of gas on the way home.

Waggon back again - rejoicing in the family. I did a great tremendous washing. After lunch I dressed & walked out to the hospital to get some bandages for my Happy Helpers to sell. Then I went to Mrs. Richards & the aux. meeting - Miss Cook is lecturing from a book on the Negro & is very interesting. From there I went to the church - only six of my little girls there - I'm afraid they do not like it much. These are the best six, tho, & we worked hard till 6 o'clock. Angie helping with Henry & Peter, who stayed to supper. Angie had vesting & I wrote paper on paper.

51st day — 304 days follow

Spent most of the morning ironing. In the afternoon I planted some bulbs in dishes, etc until Martha arrived & then I got to work on my crosses again. Crosses for Lent. At tea time Mrs. Turst came, an invitation & we had a pleasant time. Martha had to leave early & then I had a beautiful time showing Mrs. F. the place. After supper I wrote to Gerrie & to Bo and finally read my murder story in the Post. Angie thinks he has the grippe & is cantankerous. I am not sympathetic. I hate sickness & like to try to ignore it. I feel fine!

62nd day — 303 days follow

Soon after breakfast who should call up but Gen! As at ten I went down to see her & hear all about her operation. After an hour I came home & cut out two pairs of pajamas for Bo's birthday. In the afternoon I served them up. I got them both done in spite of Mike & Rilly & the mud they played in & in spite of Deborah coming in at 4. I made tea & enjoyed it. It is a beautiful day & Hugie took Jack for a walk. After supper I went to Martha Dallas to the music club, where I read my paper on Chopin. I also embroidered a cover.

Thursday, March 4, 1937

63rd day — 302 days follow

Hugie stayed in bed to see if he can rid himself of his cold. I did the washing. After lunch I took Mike to Billip & then I went to Hugie's office to answer the phone while Mary Beizer went to a funeral. At 3:30 I came home & made orange juice for Hugie. Dr. Parrish was there giving him some pills. Then I hurried up to Jo's to the Reading club but was in time only for the food, and a little gossip. I wore some of them home past our lot. Still no signs of action there. After supper Jack & I sat by Hugie's bed. I am brooding more crosses while Hugie read ~~some~~ papers.

64th day — 301 days follow

Hugie stayed in bed all morning and I brought a pile of mending to be with him. He got up for lunch and went to work. I was sewing a bit, intending to go to see Gen when the Roll-screen man came to see me & stayed for an hour - too expensive. Then I hurried down to Gus - Mike was off down town with K. Sig. I came home at 4 & found Hugie here - by appointment - & made us a nice little tea party. After supper he read to me while I made the last cross - so I have made to say nothing of all the humming, for the church - a job Mrs. had said she'd do.

Happy birthday, Mike!
Hugie stayed in bed for breakfast. I went down town early and paid all my bills & got things for Mike's party. After lunch Hugie went to work & Mike & I got things ready for his party. Before three they arrived - Billy, Philip, Margie Walker, Julia & John Warner. Sig & Warner were here too & had tea with me. Hugie came later & finished the ice cream. From the noise I'd say the party was a success. After supper Margaret B. Conell & Martha came to see us - Steve & John were at boxing matches. We talked

66th day — 299 days follow

Went to church at 8 — a beautiful morning. After breakfast I did an enormous washing. Hugie got up but took his easy on the davenport. After dinner I left him in charge while I went to Ma's to go thru a few more trunks. But Mike wanted to go with me & we had a terrible time with him & his temper — too much partly, I guess! It was more in Ma's attic from the sun. Got supper & after I had the children in bed I ironed the finished altar clothes. Jo & Pete came in while I was at it. They left early as we could retire!

House started today.

Monday, March 8, 1937

67th day — 298 days follow

Hugie took me to Ma's house on his way to work. It was cold there & the plumber, etc. didn't come to put the heat in. After a while I had to go over to Winifred's to get warm. She was packing to go south — gave me a quiddle! Finally the men came & when Hugie got me at noon it was beginning to get warm. We drove past see lot & saw enough they were digging! In the afternoon I went back to the house to work again, leaving at 4 to go to my Happy Helpers — scrap books — I am so busy I can't collect all week!

Tuesday, March 9, 1937

68th day — 297 days follow

Went down to the other house at nine - nice & warm this time. I worked in the attic & cellar - sighing over strands of Ma's hair caught in rafters, and over silly little sentimental things she has kept. Hugie came at about 11 & looked over fishing tackle & all manner of things I could not judge. After lunch K. Siig went back with me & we packed China & Martha soon joined us. Let them have their pile of fire irons. We went over to Mrs. Fursten for tea - nice rest. And then started to pack books. After supper I wrote to Bevan at length - real Post.

69th day — 296 days follow

Went down to the other house in a hurry so the man from the college was waiting to get in to pack Bo's china. I transferred things from a bad trunk in attic to a good one in cellar. Hugie came to take me home to lunch. In the afternoon Jo went back with me & boys, could she work! We finished the china & books, wrapped mattresses & rugs & packed some of the pictures. For tea we sat in the debris & ate cake. Ellen came & helped us. Just before we left I poured us each a martini & I broke Lent, but it went to the right spot! Es. as I had to iron after supper.

70th day — 295 days follow

Took a day off from my mopping job, especially as the wash pile here could no longer be overlooked. Not much rest. After lunch I walked down to the other house with Mrs. Long, for her to look over the wall paper — it all has to be done over. Then I went to Martha's. To the Reading club & made buttonholes in Beau's pyjamas. Our book "Yin & Yang" continues to be most absorbing. Martha & I walked up to see the dig afterward — very small hole. Hugie out to supper. I wrote to Beau & to Helene. John Eberman, working in Tyrore, called me up! Ate a shredded wheat & read till he came.

71st day — 294 days follow

Back on the job in earnest. Have to finish today. Hugie came just in time to tell me when to come to lunch. In the afternoon Eva came & Mike went down with me — Eva to advise on what kitchen utensils to keep. Peg Warner came to select a picture & that took time, but when she left Martha fortunately arrived & helped me a great deal with the last minute packing. Hugie took the baskets of china to her house. Ellen & I struggled home at 6 — I cleaned up & ate a sandwich & met Dora at 6:30 to go to see "Road to London".

72nd day - 293 days follow

At 8 A. M. I met the 3 men from Shoemaker Bros. who came to move the furniture. We first loaded Beau's things & took them to Nels Field's carriage house. I had a lovely time riding in the cab of the van. Then we took my things to Gen's cellar. It was nearly two before they finished. Waqwan made me some sandwiches which I ate going to the college with Hugie & Nels. The architects showed us & the stone workers - some houses built the way they want to do ours. Stopped to see Gen when we got home. Had a much needed cocktail & later a highball & celebratory.

Went to church at 8 and later got to work finding room in this already too full house to put the stuff I've brought from Mother's. John Eberman arrived for dinner & proved to be an interesting guest. He stayed all afternoon, looking at the plans & going with us to see the lot. It has been snowing steadily all day - doggone it - how can they build. John stayed to supper, too, such as it was. He is cutting lumber in Hugie's pet hunting ground & the two had a fine time talking it all over. I am just sort of numb &

Eva came with her father & brother & took a couple of old broken down trunks & lots of stuff. Then I had to turn over to my Happy Helpers - we made pictures on cigar box boards. After supper I got Kegie to go down to the house to bring up the last load of stuff - millions of pictures for Do to look over. I wrote up my diary. And then read

Martha came too & we had tea & I got the ironing done by the time they had to go. After supper Kegie phoned Dr. Adams & got him to bring his wife here to look at our plans. Did a little mending & then went down town with Hilse, stopping at Geo's to put more covers on the furniture, at the school to give them some old travel books & Dad's two flutes & at the church with the last of my linens. Then we bought John Warner a birthday present & dresses for the mission box. After lunch I hurried to Ma's house to superintend Salt removing stuff for Rummage sale. Then Hilse & I went to John's party. Several Mamas there. After supper (w. off) I read the Post, wrote to the Mission Society & ironed Bo's pajamas. Fixed.

Did my washing and went down town with Hilse to mail Bo's pajamas & to buy a collar to renew a dress! In the afternoon I set the table with Bo's candelabra & all my newly acquired accessories, for the Reading Club which met here. I darned stockings galore. I gave the club bran muffins & jam which they seemed to enjoy. Afterward I walked down town with Jo & bought chops for supper. In the evening while Hagie worked at his desk I fixed up some wooden boxes from the other house and read the Post. O

I stayed in bed all morning in spite of it being Palm Sunday. After dinner Mike & I were left here alone & he played quietly while I took a nap. Then Jo & Sally arrived and I pulled threads for my pillow case while Jo talked of Peter's operations — poor Jo — poor X. Seig — poor Janet — I am so very thankful that my children are not deformed. Jane was here to supper — teaching Ellen to tap dance while we ate ours. I wrote to Beane & was again mending fur when Aunt Sarah & Tina & Bob Mercer arrived. Highballs.

Ma's birth day — and for the first time since I can remember I can't give her a present. I did half of my washing — beautiful day, too — like Spring. In the afternoon I put Mike out to play & took a little nap. Then Mike went with me to Ma's house. Mrs. Long there cleaning, which seemed queer, but every thing is O.K. and I feel relieved. Then we went to the Happy Helpers whose day it was too polish bass. I tired when I got home but after supper I felt better — Hugie had a meeting so I devoted myself to putting my beloved desk drawers in order.

Tuesday, March 23, 1937

82nd day - 283 days follow

Did the other half of the washing and fortunately it was another bright day. I went down town with Hugie & Niles. After lunch to nail my mission boxes, & Ma's pearl earrings to his "Bessie". Then I went over to Dr. Hoffman & from Niles & I had to wait an hour for him to look at this rash on my wrists that I got working at Ma's house. Then we walked to the lot - watched the masons at work - it is thrilling. Then to Martha's to tea - from Niles was glad for cookies. Some Brews there but they soon left. In the evening I read the Post & Hugie cleaned guns.

At nine I went to Fila-Nay to get a permanent wave. They wanted to bob my hair & after much thought I said yes & snip off it came! I was glad but wondered what Hugie'd say. He came in for me a couple of times & finally at one I was ready to go with him. He didn't know it was cut till I told him; he likes it. I got H. Seig to come in the afternoon while I did my ironing and we had tea later. Billy is sick & Niles was out playing with Philip Levine. Peaceful indoors. After supper Hugie cleaned guns again & I wrote mission letters & a long one to Ma.

Went to church at nine thirty and then went downtown to buy Easter presents. Sent cards to Mrs. Weiner Cousin Bertha, Lilly Beall & Uncle Ed. In the afternoon I did some ordering etc & went to Grace's to the Reading Club. They all liked my hair in the front but were divided about the curls in the back. It does make me look younger which I'm getting at the age to appreciate! In the evening I read a pile of letters I wrote to Ma at boarding school & threw them away in disgust. I helped Hugie put up a bed in play room for him tomorrow

Good Friday, March 26, 1937

85th day — 280 days follow

Did my washing and had an early lunch & went to church at 12 for the 3 Hours. Mr. Sudlow has been sick & his sermons were even duller than usual. I heard a commotion once and Henry & Ellen came racing up the aisle each trying to get there first! But they behaved pretty well while they were there. I got Mike at Evagoras's afterward & read to him and tidied up the house a bit for our guests. After supper Hugie & I drove to Lewis town to meet Bevie & Beau. It was great fun seeing them both again. We talked & talked until after midnight. ~~bedding~~

Heinie slept in Hugie's bed & we got up before the men & had breakfast together. Later Beau & I got to work on the pile of pictures in the cellar. We had lunch & finally got thru one batch of pictures at three when I made him go with me to see Ma's house. We called on Grace for a few minutes, met Heinie & went down town to do some Easter shopping. Then Beau & I looked at more pictures. Gen came in & Hugie mixed us a drink. After supper John & Martha & Cat & Chailey & the Sigs came. The old pictures were still out & they had a fine time looking at them. R. Sig helped me with the pictures & we had a good time till 2!

I, myself found a bunch of roses & a bowl of artificial flowers & a pencil sharpener! The rest of the family finally appeared & we four grown ups went to church at 11 — nice service. Went up to see the new house. At dinner I had eggs with gifts for everyone, Hugie had gotten a bottle of burgundy & we had a fine time. Took Bebe to see his furniture in Uncle's stable, & to see stuff for mungie & all in Brook Arcade. Supper & the pictures etc & finally Heinie & I took Be to T. one —

Heinie & I had a lot of talking to do now that I've got my work with Beau done. We went down town & then she packed. After lunch I drove her to Lewis town to her train — poor old Heinie, she takes life so seriously. Henny & Mike went with us. We went up to see the new house when we got back. When we got home Jim telephoned for me to take her to see the house, so I went right back again! I can't get too much of it. Looked up dates in old Bible & let Mike stay up "early" rather than interrupt myself. After supper I gave all 31 good samplings. Put the Post — try — at night.

Back to the old routine and a big washing. Glorious spring day. In the afternoon I wrote in my diary & watered the plants, etc. & then got Martha to walk to the cemetery with me to look up more dates for my old Bible. We walked on around to see how the house was coming. Martha likes it. Then we went to R. Seig's to tea. Mike was already there. After supper Hugie went to a box fight, I read & was about to retire when I discovered "Life" so I read it & then Hugie got home before I finished & I stayed up even later to hear about fight.

K. Siig was so supposed to come for me at mine, but her car broke down and so Hugie gave us his and I drove K. + Hazel Wetzel to Altoona to a meeting of the people who run the girl scouts in this region. It was quite interesting. We had lunch served to us — at the Penn Alto — and went on with the meeting but it seemed all repetition so we got bored + left to shop a little before coming home. Went up to the new house again, got an idea to change some thing, which made Hugie mad at supper. He went to the club on business so I read, + thought about house.

91st day — 274 days follow

I was delighted + told him what I wanted then Lew Smith came, too + every thing was O. K., so I went to Deborah's to the Reading club. An unusually hilarious meeting — delicious cake, as usual at Deb. Afterward May, Pat, Jo and I walked to our lot. I had a Tape measure to see if that little hole is actually big enough! Hugie at club to supper. W. off later I wrote a paper to put in a bottle in the stone wall house.

92nd day — 273 days follow

A beautiful day for my wash to day. I did some doilies etc from Ma's house. Got them early & cleaned out my lace box & actually threw some away! In the afternoon I got you to come to sit with me while I darned millions of stockings. We had tea, & many children also demanded tea. The Talbotts next door are moving out. He lost his job on account of that awful drunk last month. After supper, Marge mended my ironing board & I mended it — also mended kitchen table — hope that will last until we get in new kitchen.

93rd day — 272 days follow

Made beds, including one for John Herman, etc & washed off to the hairdresser at 10:30 till noon. After lunch I went downtown to pay bills & buy food. Aunt Gatie & Jimmy Dingley arrived when I got home & I entertained her while he looked at stamps. They brought me some hot house tomatoes & flowers. When they left I tried to nap in vain — too many children. John arrived while I was dressing & then Stew Corryell & much later Margaret & the Mercers. Then we all had dinner. They kidded me saying they were all going to spend the night. To the fair for drinks & finally to the club to a dance — lots of fun — Bob & I. Home at 8:15.

Slept till nearly ten but John & Hugie & I managed to get to church at 11. My mouth on the altar again. After dinner Hugie & John & I went up to the new house. I stop to get Olive Cliffe who came to the Siig's for the dance last night. I also collected Gen, Betty, Harry, Deb & Mavis so we had quite a reception in the foundation. It is coming along beautifully. Olive - & they all - liked it. We three stop at the Shuffen, with Mike & Billy Siig & had a drink. Children home alone & Ellen knitted a shoe at Harry & cut his eye brow, Cliffe kids there, too. Such children. I got supper eventually - John left at nine & Hugie & I went to bed.

95th day — 270 days follow

Rainy day & I don't feel much like washing anyway so I polished & cleaned the things from Ma's that I am giving to Mavis Shuffen to sell. After lunch I took a nap then went down town & the jeweler, Rilly Brown, & I worked on a china head to make it fit Ma's broken candlestick. Got Hugie to rush me out to hospital for bandages which I then took to my Happy Helpers to fold. They did it nicely & planned a party for next time. Helped Mr. make sandwiches & after supper the bridge club came - Betty Driscoll in Heine's place! Tomato soup. Cat & I

96th day — 269 days follow

Did my washing and had a beautiful day for it. In the afternoon I wrote in my diary & straightened up my desk which does get in such disorder. Billy was here & I took him & Hilse with me to the new house where I watched the stone work for a while. Took some more things to Marvo on the way up. Then I left the boys at the Slips & went into Martha's for a cup of tea & a little chat. After supper Hugie & I went up to the college to see Nelson, Edley & Janette. We found in "May time" which we both enjoyed. Edley - Hugie really enjoyed it.

97th day — 268 days follow

Again I had to wash so there seems to be so much this week. I intended to spend the afternoon in the cellar but Deborah asked me to go to the college & I couldn't resist the room. Mike & I went with her, shop & met Janet & went for a soda with her. We went up to see the new house when we got back & called on Mrs. Long in Ma's house - it looks so terribly different. Also called on Mrs. Furst. In ant - I got supper & Hugie & I had a terrible fight over nothing. Ellen sweet. Finally went to music club at K. Slips - left early - unlap.

98th day — 267 days follow

Hugie & I on better terms this morning - but as Mother & I always said - it leaves a scar. Worked in the cellar unframing old family photo graphs - another nasty job Bo should have done. In the afternoon I went down town & then to Peggy's to the Reading Club. K. Sig kept all our children - maybe that's why they don't seem to want her in the club! I mended the Dresden candle sticks head with Mrs. Frost's cement - It looks fine. I wish Ma could see it - maybe she can! After supper Hugie worked at desk & I worked on old family albums - it seems like I was

99th day — 266 days follow

Well, I had to wash again and do a little mending. In the afternoon I worked on my family albums again until I just had to get at the enormous pile of ironing. That took me until supper time & I was tired & short with the children. Poor children, they are just young and full of good health and, oh, so thoughtful! After supper I read "Life" and we went to bed early. bed. evening when Hugie & I fought, when he went upstairs Ellen, who had just come in, closed how badly I felt and came & put her arms around me.

Betsy Martin arrived at 9:30 to open the day & I was delighted to see her. She sat around while I did a few chores & we talked & talked & I showed her the house plans. We went down town to buy Ellen some shoes & materials for dresses. After lunch Betsy & I sat on davenport while I wrote in diary & then we went up to see the house. We stopped for Martha on the way home & she came along & had tea with us. She watched Helen take his bath and after supper she had to go home with a doctor from Jersey Shore. I wrote to Becca & Winnie.

Sunday, April 11, 1937

101st day — 264 days follow

Went to church at 8 and spent the rest of the morning cleaning those Dresden candle tacks, mending a sweater that tore in the washer and various other useless things - a morning wasted I felt. And after a big dinner to make matters worse I couldn't resist a nap. Finally, however I perked up and got to work pasting pictures in an album. Ellen stayed at Janie's to supper & I fed the boys & went on with the pictures - did so until bed time with Hughie steering around writing letters. New night.

After lunch Helen & Billy &
Jack the dog went to the
new house with me.
Then I went to aux. meeting
Hurry home to get

Hugie's eyes examined.
While that was being
done I went shopping.

to celebrate & then I home.
Ellen & I put new

selected millions of things.

104th day — 261 days follow

Spent most of the morning remodeling a dress I bought for Ellen. It is getting so warm she needs cotton dresses. After lunch I had to go down to the Country Club to a card party — sixty fat women & no fresh air and how I wished I were home doing some of the many duties I have on my mind. And I didn't hold a card sat in the same place the entire afternoon. As soon as we got home I donned rubbers & an umbrella & went in the rain to see the doorway in the new house. After supper Nogie & I went to hear an orchestra at State College. ^{S. allows tickets, nice}

Busy making beds & packing until 11 when John Therman came for me & we picked up Hugie down town and started on our way to Washington. John had to stop at Bellville on business. Ate our picnic lunch by a pretty stream, at Waynesboro he had to stop again and Hugie & I went in a tap room & had several cocktails. We got to D.C. at 7 but had a time finding Eloise's apt. She was with the Randolph Hollands & they had an empty apt. for all of us! We four went to a bookstore show but at intermission we had had enough & were ~~there~~ so at 10:30 we ~~finally~~ had dinner - lobster

We went thru the new Supreme Court building, did a little shopping & finally had lunch at 4! Tried in vain to find Stebbins. Went to apt. & rested a bit before going to "Lotus" - night club where a cute little Jap served us a good dinner - lobster again! - & ~~finally~~ saw ~~what I wanted~~

108th day — 257 days follow

Felt more rested after the second night in the big bed. We went to the same place for breakfast at ten. Drove around a bit to see the lovely stone houses after saying goodbye to the nice Hallands & then started home. It is hot today, but we have had glorious weather for this trip. At Gettysburg we drove thru the battleground and then it being four o'clock we found a nice "Blue Parrot" tea room & had dinner. We ran into some storms, but finally got home at seven, all tired. Evagran having a supper party! But she left & after a few drinks we etc. oh, oh, oh, oh!

We climbed up a ladder & walked into the bedroom. Rays, oh, rays! After lunch we went down town, Mike too & looked at houses for the Ebermans. Then she took Mike home while I went to the Happy Helpers & helped them make yarn dolls. Nummy had locked the door & Hugie had to come out & let Cloise in. After dinner we sat around talking & reading a bit & trying not to fall asleep!

110th day — 255 days follow

Up earlier today and
Eloise helped me with
a big washing so that
we were all there when
John arrived at noon for
lunch. He took Eloise on
a trip to Tyrone & Kauthaus
in the afternoon. I had to
rush down town & buy
a new iron. Then I worked
in my garden, uncovering
all the pretty little shoots
while Mike & Billy & Philip
fought & played around
me. My legs ached more
than they did after climbing
Wash. Monument. John &
Eloise got back for dinner
& stayed here in the evening
while Hugie & I chaperoned
a dance at the Parish House.

A very rainy day. After John
had gone to Kauthaus &
Eloise & I had made beds
we settled down to do some
mending. Then we went
down town to buy meat,
more meat. After lunch
we each took a little
nap before making sand-
wiches — we have so much
to do these days. Then Joe &
K. Sig, Sis & Blocka &
Cat Bone & Gen came to
meet Eloise & have tea.
It was a very nice
gathering I thought.
John arrived for dinner
and afterwards we
played bridge until I
called it off as Hugie
had had a cold & was tired.

Another rainy day. After much indecision John took Eloise to Williamsport. Hugie did not get up till after tea - he feels sick.

I enjoyed the place & quiet while I did my ironing. The children & I were the only ones to lunch. I napped - Mike at 2:30 - until Eloise came & then she & I went to the Reading club at Mary Craig's. We finished "Jim & Mary." I sent John & Eloise out to supper - their anniversary - so Hugie was at club & I "had off." Well alone I read Post & wrote to Ben Cousin, Sam Holcombe & Bayouman. I washed the thermos sheets
& towels to get them out of my

some sheets & towels & then
went up to Martha's for a

with Ellen to make fudge!
After supper I tried in vain
to get someone to come here

Such bawls! Mike wouldn't

else so I lay on my bed with him.
His pain got worse & I gave him
an enema, but still his pain
got worse. Finally he got
seasick & I felt relieved too.
But he didn't really & I finally
put him to bed. After dinner

116th day — 249 days follow

Kuko had me up during night for a "quink" — he is feverish. In the morning his right side hurt so I called Dr. Hoffman. He suspected appendicitis & sent us to hospital to see Dr. Adams. Hugie took us out, Kuko bundled in blankets. Dr. A. poked poor little wide-eyed Kuko & said he would have to operate! We got Kuko a room & I stayed with him while they got him ready. He was good. Date said wishes Hugie brought me while they operated on Kuko. Dr. A. showed us a horrible, swollen appendix. Kuko came out of ether gently smiling at me. He was not sick. He slept most of the P.M. Hugie brought me more sandwiches. At 10 we left and Kuko wanted to go with us.

Billy Sieg sent Kuko roses.

117th day — 248 days follow

Slept like a log in spite of my baby in the hospital. Hugie took me out to him at nine o'clock. He seemed fine & the nurses said he was very good — I gathered later that he must have been ringing the bell a lot! He slept after I had read a bit to him & then I removed Ellen's dress. Hugie came & took me home to lunch. It is still raining — nearly places are being flooded again! After lunch I went back to Kuko. He slept. I talked to a nice English woman. Then Cat Lane came & later Martha. Read to Kuko till Hugie took me home at 6:30. Back at 7:30 till he fell asleep at 9 & then I went to bridge club at 10 — too late, so I came home.

Wrote to Heine between washings.

Went out to see Mike again at nine - he is feeling much better now & wanted to play with the cuffs I cut off Hugie's sweater (I'm putting new ones on) And at lunch time they brought him solid food but he did not eat very much. Hugie came for me & took me back after lunch. I read to him a bit but then Mr. Sudlow brought him a mechanical toy which he loved & had on a table in front of him. Gen came too with some toys, & he was very happy, chewing gum! Ellen got supper for Hugie & me! Stew. Henry at Shoppers. I did the washing while Hugie went out to the wife Mike!

119th day — 246 days follow

Went out to see Mike at 9 - it is a beautiful day and I'm feeling fine and Mike said he was much better. He played with toys and I knitted. He is getting a little more responsive to the nurses, who seem crazy about him. Miss Rider is there, who was with me when he was born. After lunch I did not go back! Ev. vacant. Wrote to Beau & then went to the Reading Club at Car's. I finished the scrubbing on Ellen's dress. We started a book Heine sent us "water gypsies" by G. P. Herbert. It is most amusing. Drove out to bring Ev. Ellen & Henry home & visited Mike a bit. After supper Hugie & I had a most enjoyable evening of bird - with mother!

120th day — 245 days follow

Went out to Mike again when Hugie went to work. Another beautiful day, with the sun brightening Mike's room. He is getting along remarkably. Dressed him the daily "Peter Rabbit" book I always take out & then he played & was interested in the little girl across the hall - trawls. After lunch Hugie did not take me out immediately, we went up to see how the house was coming along - beautifully. And Mike was asleep when I got there. Mrs. Levine brought him a toy! Her sister is out there. Mike always cries when I leave but otherwise is good as gold. After supper read "The" & we both went to bed.

Again went to the hospital. I do hope I can bring him home soon - he is obviously well, & eats as much as he ever does. The Suds now had the room across the hall today - Bobbie had his trawls taken out, much to the amusement of Mike. In the afternoon I went back, and obeyed the orders of his majesty Mike & pulled threads for him stitching & talked to Mrs. Sudlow. He yelled louder than ever when Hugie came for me. After supper I did my ironing, Hugie sitting in kitchen talking & then Pete & Jo arrived & we had high balls & much conversation till 12.

Slept late & made the beds before Hugie took me out to the hospital. When Dr. Adams came around I pled with him to let me take Mike home & he said yes! Bobbie Sudlow went home & when Hugie came at noon we carefully carried Mike out. He had had his dinner but he sat on davenport to watch us eat ours. Later he & I bath & napped then. Iroke first & planted my juncos willows to give them a start for the new house. Hugie & Henry late coming home from their walk. Mike stayed downstairs till H. & E. went to bed. Mike slept very well. After I had my washing machine working I lifted Mike to Ellen's bed & gave him a nice hospital bath. At noon Hugie carried him down to the table for his lunch & then put him on the davenport. Finally he fell asleep. Jack licked my face just as I was dozing off so I took him upstairs & gave him a bath, after I had twisted my wrist lifting him in the tub. Cat Lane brought Mike some ice cream! Then the Happy Helpers came here to roll bandages. They played in the yard when we finished. Hugie out - so I cleaned my dish & wrote to M. & E.

Beautiful up there today. After lunch I read & Mike rested until Hugie came to take us to Dr. Adams office. He took the metal clamps off of Mike's incision & told Mike to walk! Mike a bit timid at first but soon stepping out bravely. He played on the back porch while I sat there & hemstitched. Hugie went to his office to work. I felt pepped & just sat & thought about the new house until ten.

Nike got up & dressed with Henry & Ellen as usual. It amazes me how little his operation has bothered him. I planted two Chinese chrysanthemums. Mr. Frost brought us. Then I sewed up the dress I have been smocking for Ellen. In the afternoon I finished it. Martha & K. Selig came — Billy, too to play with Mike & the set of tools his Daddy brought him today. We had tea & a lively conversation. After supper I washed Mike a bit & put him to bed just before the other two. Then I completed the job I once started on my snapshots & then I ironed my wristband O.K. while Hugie read to me.

138th day — 227 days follow

Did my ironing and then went up to the other house. It is coming along so fast now. In the afternoon I went to the club to play golf. Siig & I managed to play alone & had a lot of fun. I had a 77 which pleased me very much. We had a gin rummy afterward. She let me out down town & I did some shopping before walking home. After supper Hugie went out & I fell asleep again like last Tuesday, but I think it's the afternoon in the sun rather than the drinks. I finally did it at my dressing & Hugie soon came.

139th day — 226 days follow

Another was being piled up for me, in sliding horrible old winter leg-gings, etc to go to the rummage sale. So I worked hard till noon. I feel funny as I have another pimple, or boil, or whatever it is in an unmentionable place & it makes me nervous. In the afternoon Hugie took the whole family, plus Jane Wagner & Walter L. Main Circus. It was not very good but Henry rode the elephant! After spanking Mike to make him stay home I went up to the house & noised around till Hugie joined me. We nearly blew out the candles while

140th day — 225 days follow

Spent the morning in the third floor again — now have it pretty well under control to move. After lunch Hugie, Mike & I took Mr. to see the new house — first time. Mike & I almost fell thru the rafters in the attic. Hugie finally grabbed Mike by the ankle. We were both scared. Later Glen & I went to the Spangler sale but we got bored & went back to her house to sew chat & drink tea. After supper Hugie took the clan children to a carnival. I wrote to Mrs. Weimer & Aunt Maud & got madder & madder until finally they came home at 1:30! Read a bit.

141st day — 224 days follow

Got an early start on the washing and was finished in time to go down town to see about light fixtures. The light store man talked so much that Hugie & I didn't get home to lunch till one. Afterward Mike & I went up to the new house for a "minute" but in a "minute" the Henry boy came to put in the furnace and we sat down & watched. Ellen joined us. It was after six when we got home! But Hugie was out & Mr. off so we all ate cereal together & had a fine time. When I finally scrubbed them all & got them to bed I settled down to read the new "Life".

Saturday, May 22, 1937

142nd day — 223 days follow

Made the beds, etc and ironed the children's curtains before going up to the house. Leonard Rhoades + I had a beautiful time mixing mortar for samples for the right shade of painting. In the afternoon I went down town in the car to buy the meat. Then I gathered together my mending on the davenport + Martha came to sit with me. Tea, then I took her thru the new house — she thinks it's fine. W. off again but I had plenty of time to get supper as Huggie didn't come home from his golf until eight. He disappeared + a bat got in Jack closed it out. I finished mending — Huggie at 8:30!

Sunday, May 23, 1937

143rd day — 222 days follow

Went to church at 8 — it is six months today since Ma died — seems years and in other ways I am still expecting her to walk in here of an afternoon. Spent the morning mending on the machine. John Sherman came to dinner and we all went up to the new house in the afternoon for about two hours. It seemed like half an hour. We stopped in at the Sheffers on way home. Geraldine Rarhan was with Ellen + stayed for supper — she is a nice quiet little girl. John stayed for supper, too — his voice gets on my nerves. He left at nine — read

144th day - 221 days follow

Went up to the new house before breakfast to tell the masons about the pointing. Then I did a tremendous washing. After lunch K. Seig tried in vain to get Mike to go up there, but Billy stayed here instead. They went later. Meanwhile I touched up some pictures the Happy Helpers had made until time to meet them at the church & polish brass. Only three there - it is true we are stopping. Poor Mr. Sudlow has to have his sinuses operated on. After supper Angie & I went to see Romeo & Juliet. Leola Howard & Anne Steiner. Also Coronation

got up early so as to do my big ironing and have time to go up to the house before going to K. Seig's to lunch - cherry pie! Kat Lore, Winifred & Deborah were also there & it was very pleasant. Then we all went to the club for golf. We must have had too much pie, for none of us did well - I had a 88! It was hot, too.

After supper I read my detective story in the Post & then wrote to Beam & Heinie. Heinie wrote today that she will work in the N. Y. Library. I wonder if I can. I wonder if I can. Another cat!

146th day — 219 days follow

got up early again
and went to the third
floor to scrub bureau
drawers. Finished in
time to go up to the new
house before lunch.
In the afternoon I took
a nap & then Siegie came
to take me & Mike to
Pleasant Gap to little
Janet Holl's birthday
party. A number of
brothers were there. It
was very pleasant. After
supper Hugie & I called
first on the buses in
their new house next
door & then on the old
Siegie at Burnham. Both
nice places but ours will
suit me a lot better. o

147th day — 218 days follow

Rain - so instead of
washing I attended a
pile of mending and
really got somewhere.
Thekla is cleaning
Heini's house and I
was over there a bit.
After lunch Hugie & I
went to see the Fisher's
paneled room. Then I
took Mike to the Slaffers
& had a hard time
sneaking over to
Martha's to the Read-
ing club. We read a story
about Duke of Windsor.
Hugie at club, so I
no supper & after child-
ren were in bed I had
a beautiful time sorting
all my pictures.

Friday, May 28, 1937

148th day — 217 days follow

Did my washing - first
Sally Slaffer came to play
with Mike + lost her pants
+ went home - then Billy
came + things were better.
After lunch the children
all went with me to the
new house - no school
today so there is another
circus but we are not
attending this one. When
I got home I got to
work cleaning my
bureau drawers - it took
me until supper time -
such a lot of junk I
accumulate. After
supper I read "Life" till
Hugie wanted it - then I
put finishing touches to
Happy Helper's work.

149th day — 216 days follow

Such a nice day to wash
blankets that I washed
four. Then I packed up
the stuff that I've fairly
thrown over at Helmi's
for the rummage sale. After
lunch I drove down town
+ got some meat + then
told to take a nap, with
one car open for the ar-
rival of the Ebermans. At
four I went to church to
fix the Happy Helper ex-
hibit. Still no Ebermans.
Walked up to Martha's with
her rubbers I'd borrowed.
Then came the Ebermans. Little
John is cute but noisy. They
had dinner with us + kept
house while Hugie + I went
to a good dance at club.

150th day — 215 days follow

It was nearly four when
Hugie & I got home from
the dance 'o.' I got up at
ten but felt sleepy & pep-
less & didn't do much
except read the papers,
and go over to see how the
Ebermaus slept in Heine's
house. After dinner I was
so sleepy I had to take
a nap & slept most of
the afternoon while Hugie
sounded o'ceus. Ellen
at Janie's to supper & Eloise
had Niles & Henry over
there. When little John &
Niles were in bed the Eber-
maus & I went up to look
at the new house. Hugie
had high balls for us when
we got back - later

Monday, May 31, 1937

151st day — 214 days follow

Did my washing early
& had time to go up to the
new house before lunch.

After lunch I couldn't
bring myself to do the
mending as I'd planned
Tried to nap, but John &
Niles were making too
much noise (his awfully
noisy!) Finally started
cutting the figure of a boy
on Henry's jig saw to make
a lamp base & then had
to leave at four to meet
my Happy Helpers. Ann
was the only one there,
not even Ellen! Hugie golf-
ing - Ev. off. Ellen came at
6:30 - had been helping teacher!
Cooked late supper, listened
to the radio - wrote in

After supper Hugie & I walked
to school to see Ellen involved
as a Girl Scout. She was excited.
Tuesday, June 1, 1937
-152nd day - 213 days follow-

Did an enormous ironing
& went up to the new house.
Leonard Rhodes doesn't
like the line of the grading
in front. K. Seig came there
for me to go to club to
lunch & golf. Terribly
hot as Seig & I trudged
up the third hole - she got
purple in the face. But
she beat me every hole
but one! I had an awful
day - in the nineteen tried
to find Arthur Hewitt about
the grading when I got
home. After supper the
Seigs & Antoinette Rosenburg
& Blue Beaver came here for
drinks & then we went to
the High School Alumni Dance.
But it was ~~very~~ hot.

Wednesday, June 2, 1937

153rd day - 212 days follow

After breakfast Hugie
took me up to the house
to see Rhodes about the
grading. I fell off the
front steps into a pile
of big stones! Bruised
leg. When I got home I
washed a lot of blank-
ets. After lunch Eloise & I
took John & Mike to the
schools to see Henry's &
then Ellen's plays and ex-
hibits. Jo stopped in on
her way home from it
and Ellen made us all
some lemonade. Eloise
sat on porch with us.
I walked up to house later
& saw Mr. Hewitt - sidewalk
D.K. now. Hugie at ball game
w. H. - I read Post.

Thursday, June 3, 1937

154th day — 211 days follow

Ellen went off to her school picnic & I waited to see if I were to drive her in our car. No word so I went down town to pay the bills. In the afternoon it poured cats & dogs — poor Ellen! I went to the Reading Club at Winifred's. Afterward Glen & I walked up to the house. The view was simply superb after the rain. The plasterers are getting along fast. Winifred joined us there & they both naved. After supper I tried my hand at wiring candlesticks to make lights while Angie read the Readers Digest to me.

Friday, June 4, 1937

155th day — 210 days follow

In the morning I did my washing & did in the afternoon. Hugie helped me load the car with my baggage and take it down to the store for the sale tomorrow. Then I stayed there to work. I had to unpack the trunks of Mrs. Thompson's things that I had sent there in March and go thru that tight throat feeling all over again. I refuse to go to help sell tomorrow.

After supper Hugie & I went to Park Haven hospital to see Aunt Gertrude who had slight stroke. Saw Jim Home too.

Saturday, June 5, 1937

56th day — 209 days follow

After breakfast Eloise
went with me to the
house for a few min-
utes but I finally did
get down town to help
get the summer ready
for the sale. In afternoon
we all went to the Girl
Scout Mardi-Gras which
wasn't so much, except
Ellen looked cute dressed
as gypsy. Then I have to
chit & waited peacefully
for Hugie to be ready to
go to Sing's cabin to Becka
Daworth's picnic. Ran out
of chicken, went to Huddleston
Dum - no good - went to
club where Hugie made me
perfectly furious trading
punts with Ann Dale. I did.

157th day — 208 days follow

woke up & told Hugie I was
sorry I got so mad last
night & he said he didn't
care! He went to church &
I did a lot of reading
& a lot of thinking, wonder-
ing if he would like to
divorce me & marry Ann
the more I thought the
more convinced I became
& was miserable. After
dinner he golfed. Slepped
& took care of John while
the Germans went out. Then
I darned socks & thought
some more. The Fred Rogers
fortuitously interrupted me.
I took them to see Ann Dale.
When Hugie came I told him
what I'd been thinking & he
laughed & consoled & I was
a bit surprised. Ann at 9

Why do I get such brain-
storms. Hugie wouldn't
want to marry Ann. I
did a big washing. After
lunch I took Henry & Dr.
Adams — all other doctors
out of town! — to have an
infected toe fixed. Then we
went up to the new house
where I changed plans
for queer cupboard in the
bath tub recesses. When
I got home Martha came
& sat with me & Eloise
on front porch — iced tea.
Eloise seemed to enjoy it.
After supper Hugie did
odd jobs while I read
"Life" & wrote up a week in
this diary. First time I've got

159th day — 206 days follow

Did my ironing & locked
up to the house. A light
figure man was there &
took me into the Salbotts
house to see some lights.
The Salbotts house was
started long before ours
but isn't nearly finished.
It is queer looking. In
the afternoon I played golf
with Siegie, Deborah & Mary
Rankin. We were the only
four there for ladies day
so we each got a prize —
a golf ball! And I had a
87! I guess I need a few
more lessons. After sup-
per the light man came
to see me — he's an awful
talker — finally left at 8 —
we went over to don't do

Did some washing & Russell Wither came to see me about the new medicine cabinets. Then I went up to the house & watched the Choadses laying out the front walk. The architect was actually there yesterday. In the afternoon I made three new sheets for the children's beds & did a lot of machine mending, including darning John Eberman's pants. Jo came to call on Eloise & I went over there & had tea with them. I got the children's supper. Hugie came from golf & ate cereal & then went to his office. I read Post. Cut drilies ^{from}

We all slept late - cold today & warm under the covers. After breakfast I did a lot of measuring & figuring & finally went down town & bought wire etc for all the lamps I'm making out of candlesticks. After lunch I went to the new house with Hugie & finally he dropped me off at Peggy's where the Reading club met. After that pleasant session I went to Mrs. Biblis for some lamp shades. After supper Hugie got the Ebermans to come over and play bridge. I had a pain & was so ^{bad} that I just wanted to

162nd day - 203 days follow

Stayed in bed all morning reading the Readers Digest. After lunch that pestiferous light fixture man came to see me again but finally he left & I went to the hospital with Deborah to meet - Eloise & Mrs. Rosenberg went with us. I peddled a cranky old sewing machine till my legs ached, mending the most horrible-looking garments. Hugie at club - I never did eat any supper in spite of Eloise. Read "Life" & soon my beloved Hugie came home. Now then.

Saturday, June 12, 1937

163rd day - 202 days follow

Did my washing and then went up to the new house - it was deserted except for Lew Smith's son working in the bathroom where I had changed the lights around the mirror. How I wish a hundred men would get busy & finish that house! After lunch I took a nap until Eloise & John J. were ready to go with me & Huber to Genis for the afternoon, with our sewing. Hugie off golfing again and this time I did go over to the Ebermans to supper - washed the dishes & then came home.

out of last Sunday's

then stitched spangles I
brought from hospital
Ellen cut the threads.
We had very late supper

tho, after all. Tried rub-
bing, I got so to go up to

announced at lunch that
he would go to Williamo-
port at one! and such
fun we had! he picked
light fixtures for 1/2 hour
at Lowry's Wholesale House
Did a little shopping, had
a couple of cocktails, went
to see Conjells, had dinner

Sleepy when I got up & in no condition to plan Henry's picnic — did a big wash & finally got every thing straightened out. After lunch the boys began to arrive — Richard, Peter, Bob Cruse, Bud Crouch & Henry Widdowson. Hughie Manchester came but got sick & went home before we left. Fortunately. I took them & Henry & Mike up the Hamall road where they found a water fall & a little pool to swim in. We cooked hamburger & toasted marshmallows & had a glorious time. Home at 8. Got me a highball. Put children & wash away etc.

167th day — 198 days follow

I am tired & stiff today from the strenuous picnic yesterday! But I got to work on that dock again & walked up to talk to Jake at the new house. In the afternoon I finished those hospital sponges with Ellen to help again. Then I did an enormous ironing, finishing just in time to get ready to go with Hugie & Eloise to Lewis town to meet John who has been in N. Y. We were late but he was later! Dinner at Green Gables & then we saw Jack & Fred. March in "A Tar is Born" (Gallant).

Once more I attacked that desk & today I got the last speck of varnish off of it. Then I packed up the box of toys made by the Happy Helpers to go to Miss Park's Pre-natalorium. After lunch Hugie took me up to the house where I watched Jake making porch arches until Reading Club time. But that later went to court — Titan Metal Union Labor unions. I was bored & left with Jo to go to her house & get the tea ready. We had tonight off so supper was late & it was 9 before Hugie & I started making the desk. It was

We had a most pleasant time — each relaxing to be away from our children & household worries. I had a 78, she a 79. She went thru the house with me & as usual I was late getting home. I was anticipating reading "Life" but the Bernmans got us to go over there for some bridge. Not bad. O

soon after lunch & then
I went to the garden to
pull out weeds by the
handful. Got most of
them under control when
Martha came & she & Eloise

After tea we went up to

ago & four door stops,
for the house Beautiful!
Eloise came over & sat &
advised me & John came
later bringing us gin drinks.
Finally I got the children
supper & sat on porch
talking to Eloise — even
wasted time by sketching
a bracelet I could have
made with Ma's diamonds.
Finally went to Ebermann's

But the hot time began just before we broke up — when we voted for the new member — 7 yes, 4 no. R. Sieg then got 5 votes, J. Roll 2 & Deaky Valentine 3 and then decided to wait a while before telling K. I was mad later I went up to Jo's — she is mad, too, but I guess we can't do much. Went to early church. Mr. Suddow on duty again. I tried to bring the money home as Billy Nolan was acolyte & he's been stealing it. It is red. After making beds etc. I went up to Mrs. Bibler's for another lamp shade. Spent the time till dinner drawing lines on five and after dinner started painting them — blue stripes & nearly got cross eyes. It was a hard job — I got so hot — & there were so many children milling around — & Ehemans. Ellen got supper on kitchen table while I continued to paint — till 7:30. Hegie & I ate then — so came to see

After lunch I went to Gies's to find a portrait of Ma to touch up, but couldn't find it. Jan came back with me & I painted some other things that needed brightening. Eloise came over & Martha appeared so we all had tea. I went up to the house before supper. Ed & Hegie & I went to Lewis town to meet Hegie. She is ~~in~~ there.

She approved. After lunch Heinie & Heiny & I went to the club with N. Seig. I played with B. Dorworth & Heiny caddied for me & Heinie for Becka. We had a nice game. I had a 78 & won no prize however. John Eberman is away so I had Elsie to supper & then we three women went to the movies with Hugie. He saw Fred Astaire & Ginger Rogers in "Shall we dance" good.

I finished my Port-murder story, got the devil den's supper & then Heinie, Hugie & I went to Gus's to dinner. She was all upset because Bridget hadn't arrived with Lolo. porch with Heinie (had
stayed up at the house before
lunch) until K. Seig came

184th day — 181 days follow

Made beds, etc. & figured out my bills & went down town to pay them. After lunch I washed my old eyelid dress & took a nice peaceful nap while it dried & then ironed it & made it longer, etc. Eloise came over to use the iron, too. Heinie was in Lock Haven, Ellum with her. Henry was helping a man sell "rag rugs". After supper the Ebmanns & the three of us went to the Ray Hotel to a cocktail party before going to the club dance. Our guests seemed to enjoy it. I was surprised to find it was 3:15 ^{lock} home.

185th day — 180 days follow

Got awake at 7:30 (no church thank goodness!) & wasn't sleepy — but very weary. Finally got up at 10. Fooled around, read the papers etc until dinner time.

Then I got out all my lamp shades, etc. I had painted and I shelaced them. Took the children with me to the new house & gathered up Sings & Sheffers on the way. After I'd taken them thru the house, Margaret & Pauline Waller appeared so I took them thru. Heinie out after supper, also the maids so Hugie & I read a bit & went to bed at 11:30.

Wakened early by fire crackers. W. had the day off so I got breakfast while Hagie & the children were shooting off fire crackers. I joined the celebration after my chores were done. Then Heinie & I packed up a basket & took the 3 children to Henry's birth day picnic place where we cooked hamburger & had a fine time. We had Jack with us & I took him in a little pool & scrubbed him. We three grown ups had supper with Edna & then all went up to our lot to shoot.

187th day — 178 days follow

Heinie & I had breakfast together — she is all excited about a job she has at the college (I think she ought to rest) I did a big washing after she left for the college. As soon as I'd finished I jumped in the car & took K. Sieg down to the club to the Ladies' Day ~~club~~. I played with her after ward — team day but I could only tie her, we ate play I had an 81. It was awfully hot. Went thru the new house, hoping to find something new — it seems to be at a stand still. Hagie went to his of fire, Heinie wrote letters. I Post & wrote to Heinie.

Hugie at supper gave me a
box of candy & five dollars!!

Found 3 glasses (one from each child) & a \$5 bill from Heinie (for a tree) at my place at breakfast. Heinie left early for college. I had another washing to do as I didn't do it all yesterday. Then I went down town to select the linoleum for the house. Found teapot mat Ellen made, carton of cigarettes from Martha, and a letter \$10 check from Bo at my place at lunch! Went to the club with K. Sieg for more gold-83 this time! It was terribly hot. K. Sieg bought me a gin rummy for my birthday! Made currant jelly before supper & afterward went to bridge club at home!

189th day — 176 days follow

Did my ironing all morning and must have sweated off pounds. In the afternoon I went to Reading club at Deborahs. Still no mention of a new member. Peggy was there, having missed two meetings to have a baby — she looked awful. Janet walked to the house with me & I had the joy of showing her thru it. Hugie at the club for supper. The Ebenusans hinted & hinted about the rolls I got until I finally gave them to them. Then I surprised them by accepting their invitation to eat them! After putting kids to bed I wrote to Beane & Uncle Ed & then Hugie came home.

190th day — 175 days follow

After I had my clothes done I took Henry down town for new shoes. Hugie found us & took us — & Mike — for a ride to Clarence. It was hot riding. After lunch I took a nap until Martha came when we sat on the front porch, sewing. Eloise joined us at tea time. It began to rain so I expected Hugie home to supper, but he didn't come. We did & cooked a nice supper but no Hugie. An awful thunder storm — lightning struck nearly — and I did so wish he were here. After I had the kids in bed, I got the club & found he was there. I read "Life" & went to bed. Hugie came

191st day — 174 days follow

Stayed in bed all morning while Heenie did my washing! That is luxury. After lunch the children made a swimming pool at the back — it is frightfully hot. Heenie & I sat on porch, I sewing — she ironed later. We had another storm. Deborah came with a suit for me to buy for Mike. We opened Hugie's box of candy, I too lazy to make tea! Hugie gasping. Heenie & I had some gin & tonic & later made ourselves some supper. We were reading when Hugie came home. I went for a ride with him — to throw away bottle

Slept late - Mr. Seallow in hospital again. But Hugie asked me to go to church to get the money for him so I took the two boys & went. The acolytes did well, but it was awfully hot. After dinner the children built houses in living room - it is raining again - Heinie & I sat in dining room - she writing letters, I making shoe holders for the new closet doors. The Ebermans are away for the day - peace next door. Then I got an awful headache & lay down till Hugie came home to supper. Read papers in what was left of the day.

193rd day - 172 days follow

Heinie went off early to her job in State College. I did an ironing & washing. After lunch I did some mending & took a little nap. Then I took some sewing over to Eloise's where it seems cooler. But soon I left there & went up to the new house where there was a nice little hedge. Johe was working up there again & I felt more hopeful for the finish. Henry joined me he is covered with rash so we stopt in to ask Jo if it's poison ivy. No! After supper Hugie took me to the Ebermans to collage to see ^{Mr. Powell & Miss Robinson} in "Candlestick".

At four Hugie took the Siig & me to the club where we had a two-ball foursome. We played 16 holes & Hugie & I had them one up. It was lots of fun, tho K. & I were a bit nervous. She & I played Russian Bank while the men took showers & then we had supper — my birthday party — no one else was there, so we played cards — K. & I had the p.

Another rainy day, so I didn't wash, but went up to the house & then, of course, had to hurry to get downtown before lunch to do a little shopping. Went to Mary Craig's to the Reading Club. Started smocking a green dress for Ellen. We finished "Water Gypsies" and were soon to do so. Mike was at H. Seig's this P.M. & complained of headache & went to bed without supper! Later he had temp. of 103. All doctors away. I got Hugie to come from club, but he thought best to wait to see how he felt.

Mike no better today so I got Dick Hoffman to come to see him. Dick was here in the meantime. Mike has a slight case of tonsillitis. He looks very weak & sick. He has never fattened up since his operation. After lunch he slept & I took a nap on Ellen's bed. Then I sneaked up to the house until a thunderstorm drove me home. A awful storm, but Hugie, the poor dummy is playing golf. Heine & I had supper alone. We read until he came home. He, in a most talkative mood

Slept late, as it is the last time I can sleep late for some days. After dinner Heine took Henry & Ellen to Beech Creek & I got Nils to lie down where poor he had to rest to sleep. Later I read to him & finally got him some supper before the rest of the family came home. We got up & seemed to sleep hours on our own & then it was bedtime.

Ellen helped me with the dishes & then Mike & I took a little nap. Later we went up to see the house & stayed quite a while watching Jake put the playroom door on. got up promptly & got to work again. Did some ironing before time to get lunch. Afterward I left poor Ellen with all the dishes & went to the club with Mary & Ben Beeg & Father Downs. I played with Mary Rankin & enjoyed it very much. Had a 77. We won prizes on our putting but, of course, mine wasn't so good today. When I got home I started ironing again. Eloise & I had a high ball. Later Hugie & Heinie came home to supper & after a cocktail I scraped some together! Red Francis came to see Hugie. He is a queer duck.

Wednesday, July 21, 1937

202nd day — 163 days follow

The children doing all the work I decided to go down town with Hugie to market. Then I actually found my long-lost for curtain material at Germa's. When I got home I tied up Ma's book of prayers & one of her beaded bags to send to Mrs. Weimer. Did a little mending, too before getting lunch. Heine was here & didn't go to the college till afternoon. I got Gen to go up to the new house with me. Martha came back with us & we had tea — Eloise, too.

Children at a weenie roast at Gen's so I went down to see them & ate a salad there.

203rd day — 162 days follow

The children & I got to work again. I did my washing too. Stew Correll came in while we were at lunch & afterward we took him up to see the new house. Again, I left poor Ellen with all the dishes, but she gets paid for it. 15¢ a day! Hugie drops me at Gen's where the Reading Club met — out under the trees, with a baby robin dropping in midst! We started a new book "Sea of Grass" by Conrad Richter. Eloise quite sick so I took care of Johnny till John came home. Heine & I ate late supper — Hugie & I had home ^{mixed} ~~the~~ ^{canon}

Then Ellen & I went up to the house till time to get lunch ready. It is coming along fast now. Eloise seems O.K. today. Spent the afternoon doing 101 things preparatory to going away! including shortening Girl Scout uniform I got for Ellen's birthday. Then the Scigs took us to the club where we had a good two-ball match before supper. Played bridge until 11:30. It is dis. at 11:30.

205th day - 160 days follow

Bill had to go back to town but after a leisurely breakfast Hugie played golf with K. & me. K. was playing a wonderful game. Afterward we had drinks under the trees, with Henry Keller & Bill. After a nice cold lunch our husbands went to play with H. Keller, etc and so K. & I got Red Francis to play around with us & show us our mistakes at 1.50 each. It was fun. We played 7 holes more afterward. I didn't learn much. After we went to fishing I saw a bunch of older people making fools of themselves.

Sunday, July 25, 1937

206th day — 159 days follow

Ellen's birthday and I sat there to greet her for the first time in 11 years. We four had a very close match, best ball + aggregate, etc. But I seem to be getting looser + worse. It is very hot — I'm getting ruge + brown. After a big chicken dinner (+ two martinis) R. + I played alone with Fred Hines to caddie for us and she beat me very badly. We were both tired + lay on my bed till suppertime! Supper on the porch with Red. Then we walked up to the 3rd green + ran around in our ponies + tried bare feet — all 4 of us. 7 in. We stopped home

More washing to do today but I got thru in time to go down town to buy more soap for the children. After lunch I went to the club with Siegie - we took all the children & Aunt Maime along. Harry caddied for me and I played more rattly than ever - had a 89!! Took the children with me to see the new house (I had John on my hands too, as the Ibemans are away for the day) talked to Lou Smith - I don't like the baseboards. Heinie & I ate shredded wheat as Hugie is at White Rock affair. Went to bed at nine.

Wednesday, July 28, 1937

209th day - 156 days follow

Such a nice cool sunny day. I decided to wash some blankets. Then I cut out a hunting shirt for Hugie from an old carriage blanket of Daddy's! Had a hard time fitting it in. After lunch I took all the children & my ironing down to Genie's! Poor Genie. I did the ironing on her mangle & it was lots of fun. We had tea & then Genie walked up to the new house with me - nothing very special there. Heinie did not come home to supper - Hugie & Dalene. I ironed a couple of shirts for him & then we sat together.

Thursday, July 29, 1937

210th day - 155 days follow

Another washing today. Right in the midst of it Olive Cliffe phoned. I took her up to see the new house. Then I finished the wash & went down town for lamp shade frames. After lunch I packed a bag for Ellen as she is going to Hoshang with Olive. Went to Mary Craig's again to Reading Club. Olive accompanied every one there by appearing at tea time. I got Ellen all cleaned up for her trip, gave her some supper & saw her off with Olive - her first real visit. Hugie & Heidi's out, so I went once to call on them & Fowler.

Friday, July 30, 1937

211th day - 154 days follow

I went up early to the new house with ivy, forget-me-nots, and daisies which Mrs. Washburn gave me. I planted them up there & went in to see how the work was coming along. In the afternoon I spent hours looking around the house for material to piece out the turn of shirt I'm making for Hugie. Then I got to work on it until after supper time when I suddenly remembered to feed the boys. Hugie is at club again - I do get tired being all by myself. I read. & Ted was cross when Hugie came home.

bag ready for our weekend.
Hugie came in & gave me a
cocktail but I went up to
water my flowers while he
was dressing. Finally he &
Heinie & I set out for the
Loyal sock cruise. We ate
our lunch without stop-
ping the car. Kate Lutz
pleaded me that Dr. Appel
died today. Oh, dear, poor, poor
Appels. After much trouble
we found the "Shelter" the
Cornells cabin. Mrs. Alice Wilkin-

We went swimming - good! The
Finklers arrived & we cooked

What a good sleep we had
in that crazy little cabin,
the Cornells, Heinie, Hugie &
I. After breakfast we
had a crazy game of
croquet on very uneven
ground - all Cornelleque.
Then we went for another
good swim - had a
canoe, too. At about three
we went back to cabin
& started to cook dinner.
Hugie & I found a nice
mossy bank in the woods.
We played more croquet
& fooled around garden.
Stew planting flowers.
All drinking highballs. At
dark we closed up camp
and followed the Cornells
home. I slept in back seat

Stark & Siig & Winifred
& Henry to the new house &
then to the club where
we each had a 77. W.
treated us all to drinks.
When we got home Henry
& I went up to the house
again to watch tiles for
the sink. The stair way is
not like I wanted - why

Then we met Brenda & Raleigh for lunch at a cafeteria. Home to rest a bit before going to the nice big pool for a couple of hours swimming. Ellen learning to dive. Mike went in up to his chin! Took H. & E. on roller coaster. Hugie & I took them on a few other Park attractions then a cold supper at cliffs before sleeping like home.

Unpacked again and did my washing, interrupted by farewells to Eloise & her parents & little Johnny who are going to Virginia for a month. In the afternoon I went to Quis to the Reading Club & worked on Hugie's shirt. At tea time I brought up the subject of K. Sieg again, as we just finished the book, and again we had a battle but it ended by deciding to ask K. to come next week. Mike was up at her house so I went up & told her. I was all excited. Hugie golfing - I ate no supper. Wrote to Olive. Then Ephraim moving out next day.

I gave him his shirt which he seemed to like. In the afternoon I dozed lazily on davenport until Kimie came over + we talked of many things. Her job at college is over + she's packing her furniture. 222nd day — 143 days follow

Did my mending in a hurry & went down town to buy stuff to make lamp shades for Ma's Dresden candlesticks. I feel so peopless as it is so hot that I didn't go to play golf. K. Sig wasn't going anyway. Instead I went & Martha's with my lamp shades to see how hers were made. Peggy came in with her baby & I held it to keep it from crying while Peggy drank her tea. Bud appeared too, and just as we were leaving a storm came & we had to wait till it was over. But it got no cooler. I read the Post beside Nigie.

Wednesday, August 11, 1937

223rd day — 142 days follow

Did a bit of mending & went up to the house to get them to fix my linen closet the way I want it. As usual, stayed too long. I had to rush to meet Heinie down town to get some stuff for a new davenport cover. She will give me a rug & a chair for the old one & send it to Mary! Wonderful idea, as I will have a nice new blue one. Got Martha & Gene to come in the afternoon to give their opinion of stuff. I worked on lamp shades. Nigie at club. Heinie & I ate over here. Ellen & Jane had a play "wedding of Paper Dolls". I came to see it — funny.

224th day — 141 days follow

Washed and had time to go up to the house before dinner. At 1:30 Jimmie came to take me to State College to Jault's & Reading club. K. Seig was with us and I felt very nervous about her. But nothing dreadful happened altho the meeting was a quiet one. We started a new book "February Hill" by Victoria Lincoln. I worked on the lamp shades & finished them when I got home. Hugie at the club again. Ellen & Jane had their play again to get money for stamps to write to movie stars! I wired candlestick so.

Friday, August 13, 1937

225th day — 140 days follow

Cut out the new davenport cover, altho Evagene said Friday the 13th was a dreadful day to start it. After lunch I took a nap — Henry did, too, as he wants to go to the movies tonight — farewell party to "Hotie" Taylor. Later I went up to see what was going on at the new house — but they seem so infernally slow. After supper Hugie & I went up to the Seigs for drinks before going with them to the Center Co. Golf Assn. Dance at Center Hills. It was a good enough dance. Then we went to college diner for a hot dog. Fine.

Read "Life" & we retired early.

226th day — 139 days follow

Slept late — had to do some washing and felt very old. it's silly to stay out till 4 A.M! I wonder why people like to do it? After lunch I ironed a couple of dresses I'd washed & then succumbed to a nap. When I woke up I went over to Heinie's, trying to make up my mind to sew that darn port cover.

I was saved by the arrival of Betty Martin & two friends who wanted to go thru the new house, so I gladly took them. After supper Heinie went to Beech Creek with C. Dingley Wynn. Eleanor Shaffer came to tell me how she would get Mountain birds for me.

Sunday, August 15, 1937

227th day — 138 days follow

Went to church at eight. After breakfast I sewed up as much of the darn port cover as I could before dinner, altho I am sure Evagyan doesn't approve of sewing on Sun. I worked on it a bit after dinner while K-Seig was here & then took a nap & got all dolled up. I could not find the bags, but left Ellen to look for them & rushed to the club where of course I had to wait for Angie. Finally we got to Aunt Dorothy's birthday party & it was good as ever. I felt I looked nice & had a fine time. On the way home - O - Angie got angry & I had

Hugie & I both slept late, but I had to do my washing when I finally did get up, especially as Mike had wet his bed. He hasn't done that for years! After lunch I went up to the house & watched Jake putting up the pine panels in the library fitting off sleep while I did so. Finally came home - I had left children alone - what would Ma say! And I worked some more on the davenport cover. It is going to be just the ticket, so Dad used to say. Poor Ma & Dad - I hope they are happy together somewhere. Hugie & I were in bed at 9.

Tuesday, August 17, 1937

229th day — 136 days follow

Did my ironing and went up the street to talk to Mrs. Crawford about Venetian blinds & wrote to Eleanor about them before lunch. After lunch I took Mike & Henry to the club. They went swimming & I played with K. Sieg getting beaten after I had a 73! My dives are better - too bad I can't play more this year. I came home early & stopt down town & then went up to the house. For supper I went to ~~the~~ the bridge club. It was frightfully hot & just as we were about to leave a storm came & the lights went out! Martha gave no candles!

dripping at every pore. And
put it away in Ma's trunk in

231st day — 134 days follow

Did my washing
and went up to the
house to see how the
kitchen cupboards are
progressing. After lunch
the Reading Club met
here and it was
frightfully hot and un-
comfortable. Wilco sat
with us most of the time
sewing, too! He's a funny
little dodger. Everyone
rushed off right after
eating as a storm
threatened but it never
came. Hugie at club
dinner & then went to
Beech Creek to bring Hennie
home. I finished Ellen's
dress & retired, thinking
about sewing, etc.

232nd day — 133 days follow

I bought a 2 bushel of peaches yesterday and got to work peeling them right after breakfast and Evaglean & I had 12 jars canned by lunch time and 1/2 doz. of peach butter. It is still frightfully hot. But I went down to Jim's to measure kitchen table, washed Jack & then went up to house to get Jake to change a few things! Hugie picked me up there to go to club with Siego & Heinie. We beat the Siego in a two ball foursome. I got very tired. Supper there & more dew on the green! Home early

233rd day — 132 days follow

More washing to do & much running over to see how Heinie was getting along with her dismantling. I went down town in the heat before lunch & drove home. In the afternoon I scrubbed & polished two little French chairs and put new covers on the seats. They look beautiful. Tina Lamb was at Heinie's & we all went up to show her the house. Heinie & I had highball later. Hugie & I decided not to go to dance at club too awfully hot. I helped Heinie pack her kitchen utensils & we all had drinks

(might have thought
well gone to dance!)
Then Ellen and I went
to third floor & packed
up the things in the doll
house ready to move.
We started on her dolls
but couldn't finish be-

stuff is all packed.
We all (except Henry)
went to the Wynns' camp

235th day — 130 days follow

A rainy day, so instead
of washing I took Ellen
to the third floor again
and finished the job we
started yesterday. Soon
after eleven I went up
to the house. Jake &
Frank Gross were starting
on the banisters and
it was fine to watch
them. In the afternoon
I struggled to cut the top
of a dress out of the shorts
I made for Ellen some
time ago which weren't
a success. I went over
to Heini's & cleaned her
naps with my Hoover.
We had high balls later.
After supper I mended
the lace curtains. — H. & H. talk

236th day - 129 days follow

Still rainy, but I had to wash my way & the biggest washing I have ever done. The Shoemaker Bros. came to take Heini's furniture after lunch & all was confusion, so I left & went up to the new house to watch the sailing go up the stairway. I

finally came home & found Heini all alone in an empty house on a chair in to have. So we had highballs & she came over while I sewed up the dress for Ellen.

She is staying with us now. She went to movie & Heini - I read & retired.

Cat & the Craig came to bridge later. But we played

I went out to my garden & pulled out three bushels of weeds! Now, we can find the plants to move them pretty soon. Hugie was spending the day up at the new house and I went up with him, after lunch for the big event of starting the furnace. It worked too. While I was up there, in the attic, Winifred appeared & got me to go with her to play 5 holes of golf - we were both terrible. Took Henry & Mike with us. At 7 Hugie, Heini & I went to Martha's to dinner - nice -

238th day — 127 days follow

This day and the next are two that were not written when they should have been and all I can remember now is that Heini is now occupying our enormous third floor guest room and that she went with me to Martha's to the Reading Club and sat there with her supercilious smile which always makes me mad. Martha & Peg Warner obliged me by going with me to take a look at the new house. I wonder if anyone thinks it so successful as I do!

239th day — 126 days follow

All I can remember of this day is that I spent most of the afternoon scrubbing Heini's dining room rug which I have brought from her. With the chair in a trade on the davenport cover. I scrubbed it with soap & water & it looks a lot better. And then at supper time I got a telegram from Bean saying he will arrive tomorrow. It threw us into consternation as W. is away. But I am glad he wants to come and hope he will stay awhile.

244th day — 121 days follow

I did my washing - poor Beau, I'm afraid it is a dull time for him - the tennis courts aren't in order & it is just too damn hot for me to ride. After lunch Betty & his wife brought Mr. & Mrs. Kane to go thru this house - to buy it. When they left I went up to see the other one & was discouraged to see mantle going up. Came home soon to do my ironing. ^{Bo looking at my album.} Beau & I had supper alone & then joined Hugie at the club - Pete was there & we took go down. Nice time there but when we came home Hugie went to Mayhew's &

Then I took one of Heini's little tables, which she is lending me, to the front porch with Beau + I scraped the top of it down to the wood + sanded profusely! I polished it, too. After lunch I cut the boys' hair - before + after a thunder storm. Later I went up to the house + watched Frank Gross working on the cornice over the mantle. Beau + I had cooling drinks. After lunch he had letters to write so I took a nap and then did a little mending before going up to see if the new house was still there. At six thirty Beau + Heini + I went to Nunc Fred's to dinner which was very nice. He left after nine + went to the club dance. I did not enjoy it particularly, but Beau had a fine time with Mary Curtis. ^{Heini} at 3:30.

Beau napped a bit, too & then went up to the house to help Hugie pile up the wood. When I got awake I washed & packed the tinbets on the shelves. After lunch I took a nap - the older children at school & kids with Gov., all quiet so I slept long & was late to Reading club at Jo's. We finished "Fib Hill" - it was a remarkable book. I went up to the house to water the plants before supper. Hugie & I alone once more! After supper I wrote to Heinie & figured out my bills while Hugie put his around.

Hugie and Waglan & Mike & I moved the stuff into the play room and laundry from the garage & cold room. I did a big washing at the same time but had no place to hang it up as it is raining. After lunch I myself cleaned the cold room and put oil cloth on the shelves & then my jellies, etc. Mike played nicely in the nice new play room. Then I tried to "red up" the laundry. When Ellen came home I got her to work too. After supper Hugie put hooks for a line in the laundry and at last I got my wash hung, and the Dodge in the

Nice sunny warm day so I decided to wash again, trying to get caught up with that awful pile of things to be washed. After lunch I went to the third floor and finally finished up there — making it look like a model attic. Then I wiped a high ball & started to iron. Ellen with me and I told her about menstruation! I did not seem to alarm her. Her's right off so I got supper. Hugie had to meet Mr. Barraclough to get the \$200 for our old house. Pete & Jo came & celebrated the selling! O

Hugie went hunting again. I cleaned the upstair while Evaguan cleaned downstairs, getting it ready for the Reading Club inspection. They came after lunch, eight of them and thought it was wonderful. We made a grand tour before we read and I gave them each a present some trifle I didn't want. We had a lot of fun over it and the sandwiches were delicious so every one was happy! After supper, after I had the children in bed, I figured out my accounts. It was very sad.

281st day — 84 days follow

Did a little mending and a few odd jobs and went down town to pay my bills. It takes me twenty minutes to walk from here to the diamond. It started a bit while I walked! In the afternoon I put cards with our names on the lockers + drawers in the third floor. Then I put new plugs on a couple of lamps. Mr. Winters the plumber came with the towel racks, etc and I had to show him where to put them. After supper while Hugie puttered around, I just sat & completely enjoyed myself in peace.

I did some washing and Jabe came to hang some shufles and up-boards in my laundry, or workshop. It is the last I will see of Jabe. I am afraid — can't think of any more jobs for him! After lunch I took the children down town to buy them new shoes & a pair of pants for Henry & match a coat of Bill's! Hugie brought no home and I cleaned up the laundry once more & washed the pictures from Ma's attic. Pete & I came to a word cook dinner & then we tried to hang the pictures but dis-

Went to church at 8 in the car & brought Mrs Bible & Mrs. Boney home. Eugene was late so I started breakfast. Then I made the beds up clean, and sorted the children's winter clothes and wired a battle lamp for Hugie's big boy. Then we had a nice cheap casserole of beef dinner. In the afternoon I got busy washing and oiling the oil paintings down in my studio, or workshop. It took all afternoon what with occasional pauses to look at the new. After supper I went to Cornell drop in for a minute. Later Hugie & I hung pictures.

Looked cloudy so I gave up the idea of washing clothes & washed my hair — I can't even take a shower these days, much less wash my hair in it. Then I cut my toe nails which was another big job. K. Sig came while I was in midst of it. After lunch I went over to the Shoppers & Maas gave me a lot of plants for my rock garden which I planted during the rest of the afternoon. Mike was spending the day at the Sig's — nice & peaceful. After supper Hugie & I finished taking pictures. quite a number. 10.

285th day — 80 days follow

Nice sunny day so I got to work in the laundry, & while washing, ironed Ellie's winter skirts etc. It was windy and after lunch Mike & I had to go into the adjoining field to gather up some of the wash! Mrs. Witten gave me a lot of plants for my rock garden, too, so I planted them — it is quite decently filled now, if only they all come up in the spring. It began to rain — luck! — so I came in to hang a few pictures myself in the bedrooms, blissing holes like Hugie does. After supper I read H. at his

She gave me \$10.20 which Maw got selling old bric-a-brac for me! Then I came home to iron + before I finished K. Seig came + I gave her a martini as she is taking Ann away for an operation. Hays was out to dinner while I was putting beds to bed who should come but Catherine Wynn + her three. Martha stayed the night with Ellen. C came back later + we had a nice visit with our husbands.

The Cliffe children arrived + then all played in the snow blitch out front! Billy Seig got sand in his eye + then wet his pants! The last tulip was finally in at 6:15! Still no sun for my wash so I went all over the house washing the carpenter's finger marks from the plaster and you can see the difference. After lunch we took Mike to Billy Siz & then Hugie & I went up in the ridge back of Eagle to a nursery of redgum. We picked out some to plant around our house but they aren't so nice & we will have to resort to the expensive job. Then I went to Gen's with my penitence for the afternoon. Old Auntie Ann is very sick & very much trouble to Gen. After supper we worked & I read the Post.

Hugie & Lew Smith & Dean Kennedy went all over the house — final inspection and after lunch dear old Jake came back to do a few old jobs. Swank came too to fix the bathroom. I polished knobs on my big bureau & gave the laundry a good cleaning stopping to smoke a cigarette with Jake on back porch. After supper I went out. I read the Post.

Yoke had hoisted him up to

But I was homeside for my old back pain before I got thru. Such mud & my line sagged so the clothes got in it. After lunch Gen came to see the house & we went all thru it & I gave her some bed pads & some tea. Then the Hoover man came to plant the trees we got at Bond bluffs & I had to transplant a lilac. Had my back fast in bed + stayed there most of the morning, after Yoke was planting trees + I was itching to be out watching him. I did go out after lunch. The trees make a difference in the appearance of the house. When I lay in davenport but when the painter came back to touch up window sills + with Mike + Billy in + out, I had no place. I feel like the dickens + very peopless. After supper, let Huguie take the children all three, to the Halloween parade while I looked at Life magazine. Hurried them into bed at 8:30. all tired out.

After lunch we were sitting sewing when our husbands came home early, very tired with one more bird — which Jack took with the others to Leicester when they left at three. After lunch I stung myself over scarlatina, then put away the wash & took Niles & Billy with me over to the Slaffers. Poor Jo is still in bed. I came home in time to get supper. They also talked about the "surprise" house warming for us tomorrow night! I worked on a georgette Camp shade for guest room. After dinner Mike went to Billip's birthday party & I planted tulips - the Blaine stopped in to see house, also I asked the Blaines as they went by. So I didn't get much work done. Henry isn't feeling well today, but I told Ellen to take care of him after Ev. left, as we grown-ups went to Martha's to what she called lunch. It was very good & John an excellent bartender. We stayed there till four when we came home for the Appels to pack up & depart — I couldn't persuade them to stay longer. Horrible rainy day — kept Henry in bed as I should have done yesterday. I feel him & people, too. Polished the basket load of silver I have to take to the Parish House. There Mrs. Boney & Mrs. Curtin helped me fix the table. I went over to lunch & for a coffee urn & had a nice chat with him. After supper Hugie & I went to the reception at the P. House Sunday. 324th day — 41 days follow

Hugie & I left at 8:30 for Pittsburgh — nice ride getting us there at 12. We went to the Schenley Hotel where we had a very good lunch & then walked to the Pitt Stadium & the seats reserved for us by Mr. Parker one of Hugie's special agents. We saw Penn State beaten by Pitt — 28-7. It was cold but we enjoyed it all — Hugie bought me a big white chrysanthemum. We had a cocktail at the Schenley before heading our way down town to the Metropolitan Club to meet the Parkers. Many more cocktails — very good dining pongie — Parkers nice

325th day — 40 days follow

Mr. Parker got us a room in his club so we did not have to travel any more — they left about one o'clock. We slept late the next morning & then started out for Washington, Pa. 30 miles of snowy, slippery roads. We finally reached Hugie's old friend Bill Gibson who lives with his mother in a 3rd floor room filled with trophies from all over the world. We had a most pleasant time with them, having drinks & then going to the nice hotel for a turkey dinner. On the way home we ^{we started at 4} saw a man doing tricks in icy water! Then we lost our way — 34 miles over ice wasted! The chairs were wet & we took them off. Supper at 12:45.

326th day — 39 days follow

Hugie + I both slept late
after our tiresome trip. I
didn't get much done
before lunch, except to tell
a page of our week end.
In the afternoon Billy
came over to play with
Mike outdoors and I took
a little nap until they
got cold + wanted to come
in. Then I wrote a letter
to Bill Gibson to tell him
of our nice time. That
done, I cut out + started
sewing four shoe bags
for the church sale. I
finished one before
supper + the other
afterward. Had time to
look over the Sunday
papers a bit before bed.

327th day — 38 days follow

Just one year ago since
Ma died. It seems years
and years. I got to work
in a pile of washing and
was rewarded by the sun
coming out nice + bright
to dry it. I also cleaned a
ton of dirt out of the play
room. In the afternoon I
made the bed all clean
+ then went back to my
shoe bags. Had a lot of
trouble with the second
+ was tempted to get a
gin + tonic to relieve
nerves but resisted. After
supper I stitched a little
more - oiled the machine
+ then read my murder
story in the Post while
Hugie worked at his desk.

Dance tonight but we don't
want to go!

328th day — 37 days follow

Hugie had a terrible time
getting up this morning.
It takes him so long to
get over a week-end like
the last. I washed my hair
& did another big wash,
including ~~four~~ steam shirts
& cleaned the laundry.

After lunch I ironed - did
Eva's, too, as she had
to polish silver. At four
I took Billy & Mike over
to the Ship, but Mike would
not stay & went down town
with me & to fix the
church - flowers & all, for
tomorrow. Supper time
when we got home & Hugie
my crutch - wrote in diary
after the children were in bed,
ironed. ~~He~~ came in on their
way to bed.

329th day — 36 days follow

The whole family got up
early to meet Beem in
Lewis town & waited there
while he got some break-
fast. Then it was great
fun taking him thru the
house - he likes it &
settled him self in his room.
While I made beds & went
down to see fix the church.
We had our turkey dinner
early in order to see the
foot ball game between Belle
fonte & State College High
Schools. B. won. Lots of
mud. Bill Henszey & his
wife & John Henszey & his wife
there & we got them to come
here afterward for a drink.
Cold supper - Beem & Hugie went
out to see Lou & Mike Fred

330th day — 35 days follow.

Beau & I had a luxuriously breakfast together and finally I got him to go to the attic with me to look over some linens I found in a box of his to see if he wanted any of it. After lunch he went down town & I took a little nap. Then Beau & I sat in the pine room, I darned socks for him & mending his clothes — poor old bachelor. After dinner the Craigs came in and we had a couple of drinks & the candy Beau brought. After they left we discussed estate business until time to go to Lewis town for the 12:02 train. At 12:02 train. At 12:02 train.

331st day — 34 days follow

I stayed in bed all morning, snitting and wishing Beau had been able to stay until then. And after lunch I lay down again, hoping to nap, but Ellen had Jane here, Henry had Peter & Thelma had Billie & they seemed especially noisy. Finally I got busy printing posters for Ellen's Girl Scout Bake Sale. Then I ground up 3 grape fruit, 4 lemons & 6 oranges to make grapefruitade. After supper I read a life while Hugie puttered around getting his things ready to go to the bank. It makes him feel better.

332nd day — 33 days follow

Hugie left at 7:30 for
Uncle Dick's hunting
camp & I went with him
as far as the church &
fell asleep in pew waiting
for service to begin! After
breakfast I made the beds
& then cut out pyjamas
for Beau's Trus. After
dinner I took a little nap
& then settled down to stitch
pyjamas, but first Pete & Jo
came in & then Mr. & Mrs.
Charles Martin. I had the
fun of showing them the
house. A hard rain came
& delayed their leaving.
Then the children & I had
supper. It is very windy.
Ellen slept in Hugie's bed &
kept me company. I stitched.

333rd day — 32 days follow

It was nice having Ellen
in the bed next to mine —
not so lonely. Nice sunny
day for my big washing.
Mr. Ingraham, church sexton
came to wash the outside
of the windows. After lunch
I stitched pyjamas until
three when Bill Henzey
came to look at furnace
& I went down with him.
Then I had to cook my
marmalade & Jo & K. Seig
came in & sat in kitchen
& had high ball with me.
I finally got the lard in
the jars & ate a wheat
biscuit — children in bed
by that time. I stitched
more pyjamas until I
was too tired to think.

334th day — 31 days follow

Was discouraged to find half of the marmalade not stiff enough. Had to cook it again. Also did more washing as the sun is so nice. After lunch I finished stitching the pyjamas + went down town with R. + Billy Sig + Wiles. She took them off my hands when I went to the church to polish brass. Got the child's supper with Ellen's help. She also helped me put fancy cellophane tops on the marmalade + then I dressed for the bridge club which met here. R. Sig + Winifred substituted for Helen + Grace. Used both rooms. Don't

Pressed my shoe bags and did various odd jobs in what was left of the morning after my late breakfast. After lunch Dottie Schrad took me + the shoe bags + the marmalade to the Parish House for the Bazaar. It was a very nice bazaar, we made 125 dollars. When I got home I fixed my flower pots in the boxes Martha got for my window sills. Wagon came back at 8 + I went to Dottie's to the music club with my mandolin as we had ainder in the evening! When I got the inside done
it disappeared & showed
up on the outside. In the after-
noon I took Mike over to
play with Billy & had a
scene there when he did
not want to stay. But fin-

down to Gen's to the
Reading club. When Mike
& I got home again, there
was my dear Hugie! Hey,
I was glad to see him.
He wasn't there so I got
together sufficient supper.
Mike seems feverish. I had

Poor Mike had an accident

shirts & then sat with
Mike, mending. Evagene
stayed with him in the
afternoon as I had to
go to help make prices
for the rummage sale.
Left at four thirty &
stopped at Martha's for
a needed cup of tea.
Hugie got word from Mike
that Jack was there!
He took H. & E. to parade to

Nike still in bed but feeling better. Another nice day so I washed and cleaned the laundry. Had lunch early & went to the Rummage Sale - quite exciting this time as a woman fainted or had a fit or some thing. At 3:30 it seemed it must be five - I got Hugie to take me & my purchases home - curtain stretchers & two porch chairs. I found the three children & Jack in Nike's bedroom all behaving perfectly! It was most gratifying. I sat with them, mending. After supper the Sigs came over to play bridge as he couldn't go there - to night for! We managed to play 2 miles - 2 A.M.

339th day — 26 days follow

No Alter Guild today so I peacefully slept late - made the beds all ~~the~~ & got Nike up - he still has a bit of fever but is restless in bed. Finally I settled down to write in my diary. After dinner Hugie went to walk, Ellen went to party, Henry went out to play in the snow that's coming down & Nike was playing with pots & pans, so I took a little nap. wrote to Betty Appel - Nike got tired so I put him to bed & read to him. Later after supper when everything was quiet I wrote to Lattie Appel & Mai. and chatted with Marie.

340th day — 25 days follow

Hugie got up early to shovel the now quite deep snow. I decided it would be easier to wash windows than clothes so did so after getting tubes up & dressed. In the afternoon I got Gen to come up. We had a lot of fun taking pictures of her to send to Bob for Christmas - indoors. I wonder what they'll be like. She wasn't worried about the Chemical Line. We had tea, of course. After supper Hugie went to Rotary meeting - H. & E. were coasting beside the house - fast, but safe. I sat in Pine Room & finished Beau's pyjamas. O!

341st day — 24 days follow

Ellen is sick now - the same throat & cough Mike had. I figured out my bills & went down town to pay them. It is very cold & wintry. In the afternoon ~~she~~ came - I started to fix a neck for pyjamas for E. Hugie came home suddenly & went off to Mike & Dick's camp again - he has back fever, he says. So Martha invited me to their sauerkraut dinner and I went after rubbing Ellen & telling Eva how to fix her for night in H's bed. I came home at 9 after delicious dinner. Read Post & sewed. &

Ellen was most restless all night, so I got very little sleep. Had to get at my washing, but hung it in the house as it is so cold outside. After lunch I sat by Ellen's bed and made a stocking box for Suzanne, covering a plain box with pink & silver paper. I took it with me to Jo's when Henry came to keep house. Jo was having Reading club & I got there for tea. Afterward I drew a Xmas card, again beside Ellen's bed. Finally got them all to bed. Finished the card & then with light of night, did the

Later in the morning I took all the oriental rugs out in the snow & did a top dance on them to clean them! I did, too! It was a clear icy day, but I perspired over the job! After lunch I had to take a nap, but at 3 I went in to Ellen's room & she & I made little wool flowers for sachets for "Aunt Grace". went to church at 8 & helped Mrs. Bailey put the things away so she could drive home with me. Felt as if I'm getting the children cold. Later I took Ellen down to the "studio" & worked on her portrait a little more.

After dinner — & a cocktail — I just had to lie down & rest a bit. Ellen & I went to call on again & I finished the picture. I don't feel satisfied with it — but I'm tired & sickish. Pete & Jo came in & prevented me from going coasting with Hugie & the boys — but I didn't want to anyway. Got the children to bed early. Made more little bags, listening to radio.

347th day — 18 days follow

Did my washing and had to come indoors twice to thaw my fingers before I got it all done. I still feel sickish & still don't like Ellen's picture altho everyone else seems to. In the afternoon I took a nap — so did kids (Ellen went back to school) until K. Sig & Billy arrived. We served & had tea. When she left I wrote a couple of business letters. After supper I went to the Women's Auxiliary meeting, left early to go with Hugie to the college to see Fred March & Carole Lombard in "Nothing Sacred" — ~~very~~ ridiculous.

Set out to do a lot of mending, but the plumber arrived to fix a couple of leaks. Finally, I walked down town and Hugo brought me home. In the afternoon I got out Miss's velvet curtains & cleaned them with vacuum. Gen arrived & was a great help in deciding just how to use them on these windows. I cut them in half! — long the wide. Ma would be horrified. I do hope they will look well. After supper Hugo is busied himself on odd jobs around the house. I wrote up diary & finished my ~~actual~~ actual.

got up early to polish my floors with wax & Gen's machine. K-Sing came to see if I was doing it right. I rather like to do it. I did the living & dining & pine rooms. In the afternoon I got to work pinning the linings of the blue velvet curtains to sew them. Martha came over & we had tea & usual conversation and I just succeeded in pinning the last curtain at supper time. W. was out so I was cook and by the time I had the children to bed I had energy left only for making the Post. I am fighting off a chest cold.

350th day — 15 days follow

Today I polished the lower hall and stairway. They look beautiful when I finish — Hugie says, just as well as they did before. In the afternoon I went to the Reading club at Winifred's. Many Craig did my knitting while I put initials on handkerchiefs for her. We are still reading "And so, Victoria". Winifred, Peg & Deborah came home with me to see Ellen's portrait — they liked it, too. But I don't. After supper Hugie & I went down town to the movies, sort of sudden like. It was "Double Wedding" with Myrna Loy & William Powell — but not as good.

Finally I started to stitch the curtains by machine & found I couldn't do it. It was discouraging to think they will all have to be done by hand. And after supper I started them. with early breakfast I got a good start on my washing & so was able to go down town before lunch. Took Ellen's picture to be framed & got an electric clock for Henry. Somehow I missed Hugie & it was nearly one before he finally picked me up. After lunch I cut out pajamas for Ellen & got them partly stitched before Martha came. Then I sewed the tops of the red curtains. We sat in the parlor for a change — nice & cozy. After supper Hugie sorted out the reunion he got yesterday and I got to work addressing the New cards — and I was finished first, thank (?) to —.

This morning my job was to wash the second floor windows — but I only got a few of them done. They are so big & so splashed with paint. I have a new stuff to use, called Windex. After lunch I finished Ellen's pajamas and then ironed Bonnie's & other new presents & the red curtains which looked surprisingly well. Hung them & they look surprisingly well. Then Ellen & I went upstairs to sew the flowers in the little sash bag we made. After supper Hugie got the 2 second hand bicycles & we took them to the attic & cleaned them. Hugie had a bad day.

Here endeth 1937. A wonderful year for me with the realization of the House I have dreamed of for so very long. May it prove to be a happiness to us and not a burden. 1937 also saw two of our children in conditions which could have proved fatal - Mike with appendicitis and Ellen hit by a car - But God was good, and has preserved us all, a happy family, to live together in a beautiful house. I will always remember 1937 as a busy year, full of new experiences.
